# The Skill Master Belt Blaster

## White belt

- Put your instrument together
- Store your case correctly
- Pack up your instrument
- Play a D from memory
- Demonstrate class rules
- Demonstrate how to tongue notes
- Play *Hands Up!* (beginner notation)
- Tell me what the following things are:
  - Mouthpiece
  - Slide
  - Slide lock

## Yellow belt

- Play D, E-flat from memory
- Play up to #4 *Turvytown*
- Rhythms 1 – 4
- Play a 6-second long-tone
- Perform a tune you've learnt to an audience
- Tell me what these things are:
  - Bell
  - Water key/spit valve
  - Crotchet/Quarter note
  - Semibreve/Whole note
  - Rest

- Beat
- Flat, sharp, natural

## Orange belt

- Play D, E-flat, F from memory
- Play up to #8 *The Heath Street Hustle*
- Rhythms 5 – 8
- Write a four-bar rhythm using the notes you know.
- Tell me what these things are:
  - Rhythm
  - Pitch
  - Time Signature
  - Bar
  - Bar line

## Red belt

- Play up to #13 *Cobbler's Load*
- Show me where D is on the staff
- Explain line notes and space notes
- Tell me what these things are:
  - Line
  - Space
  - Clef

## Green belt

- Play up to #20 *Nuggie Nugs*
- Rhythms 9 – 12
- Sight-name D, E-flat, F
- Write a four-bar tune using the notes you know
- Tell me what this is:
  - Minim/half-note

## Light-Blue Belt

- Play up to #23 *Waving, not Raving*
- Sight-name C, D, E-flat, F
- Rhythms 13 – 16
- Perform a tune you've learnt to an audience
- Play a 10-second long-tone

## Pink belt

- Play B-flat, C, D, E-flat, F from memory
- Sight-name B-flat, C, D, E-flat, F
- Play 3-up 3-down
- Play up to #30 *Hot Cross Buns*
- Tell me what this is:
  - Ledger line

## Purple belt

- Play up to #38 *Cumulonimbus*
- Play 4-up 4-down
- Demonstrate how to lubricate your slide

## Dark-Blue belt

- Rhythms 17 – 24
- Play up to # 42 *Phoenix*
- Tell me what these things are:
  - Quaver/eighth-note

## Black belt

- Play 5-up 5-down
- Play up to # 43 *Pick Axe*
- Rhythms 25 – 30
- Perform a tune you've learnt to an audience
- Play a 12-second long-tone
- Tell me what this is:
  - Tie

# Reflection checklist

Here are some good questions to think about when giving feedback to other musicians and even to yourself.

- What were some things that you liked about the performance?
- If you were to play the tune, what might you do differently?
- What are some things that could be done to make the performance even better?
- Was the performer nervous or anxious before they played? What did they do to help overcome the nerves?

Remember:

- Feedback should always be positive and helpful. Even if someone had a bit of trouble playing a tune, we want to help them so they play better next time.
- It's okay to disagree. We all like different things — that's art! If you have different ideas about how to play a tune, that's okay.

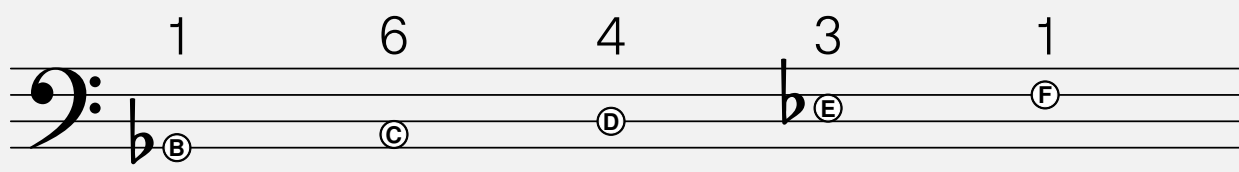

# Slide lubrication checklist

- Be very careful when taking the slide off the trombone. Make sure it stays straight when it comes off the instrument, and you give yourself plenty of room so you don't hit anything.
- If you're using a liquid lubricant, make sure you shake it well before using.
- Put a line of lubricant down one side of the slide. Put the slide back on (just that side's okay) and move it up and down to spread it over the entire surface of the slide.
- Repeat for the other side of the slide.
- Carefully put the slide back on to the trombone. Take your time and take care not to damage the end of the slide. Make sure everything stays straight.
- Move the slide up and down a couple of times. If there are still problems, ask someone for help.

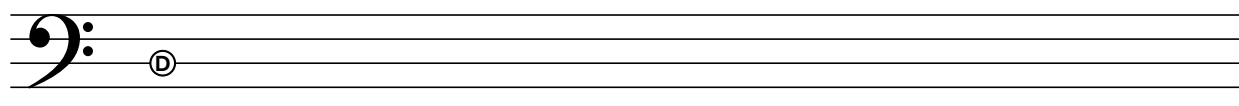

Remember: if you can't get something to move, don't force it!

Also, don't use any tools to try to fix things if you don't have experience with fixing musical instruments. They're very easy to break, and fixing broken instruments can be very expensive!

## Slide positions you need to know...

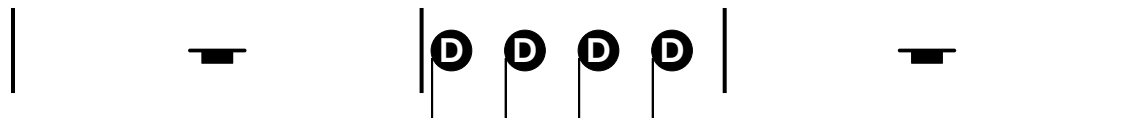

## New note!

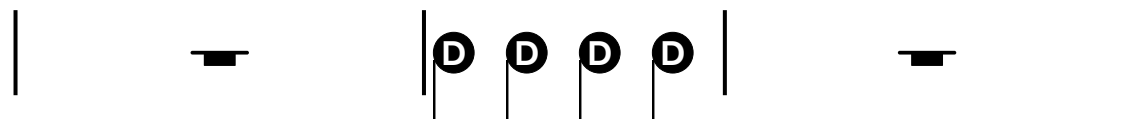

# 1. Hands Up!

4 ①

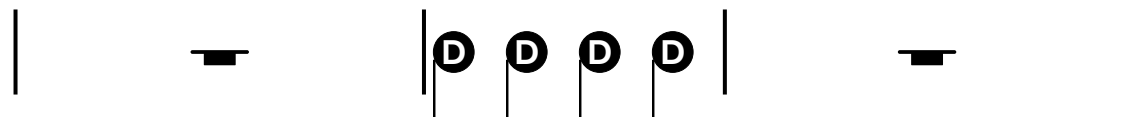

①

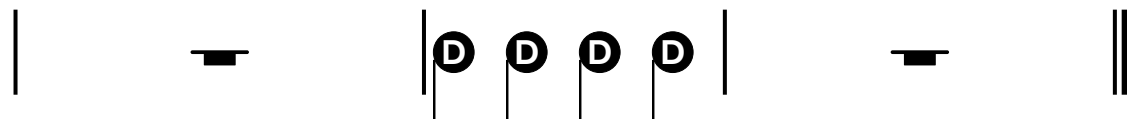

4

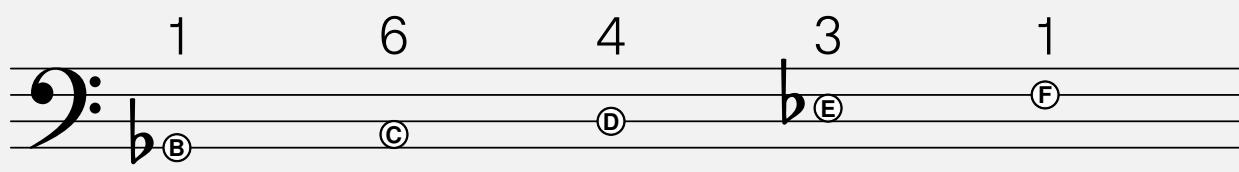

①

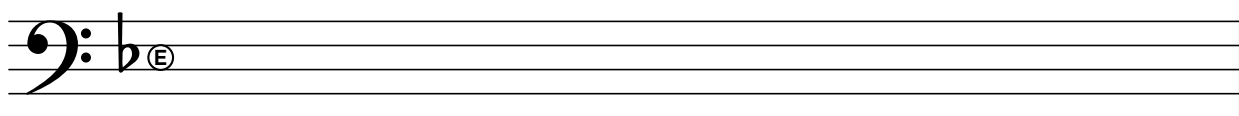

①

## Slide positions you need to know...

### **New note!**

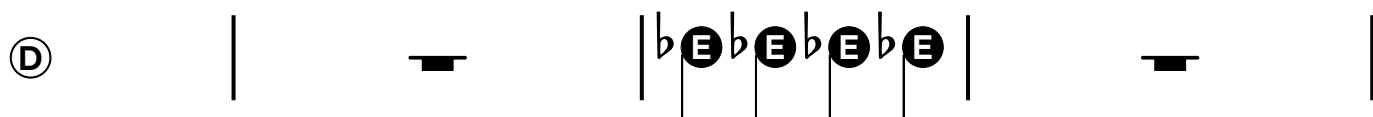

Draw four quarter notes:

What's another name for a quarter note?

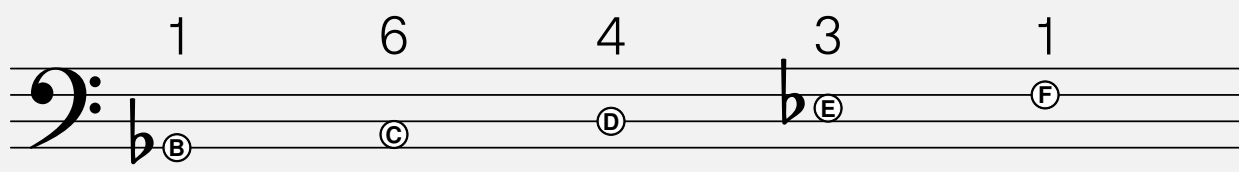

Draw four whole notes:

What's another name for a whole note?

## 2. This Is The Way

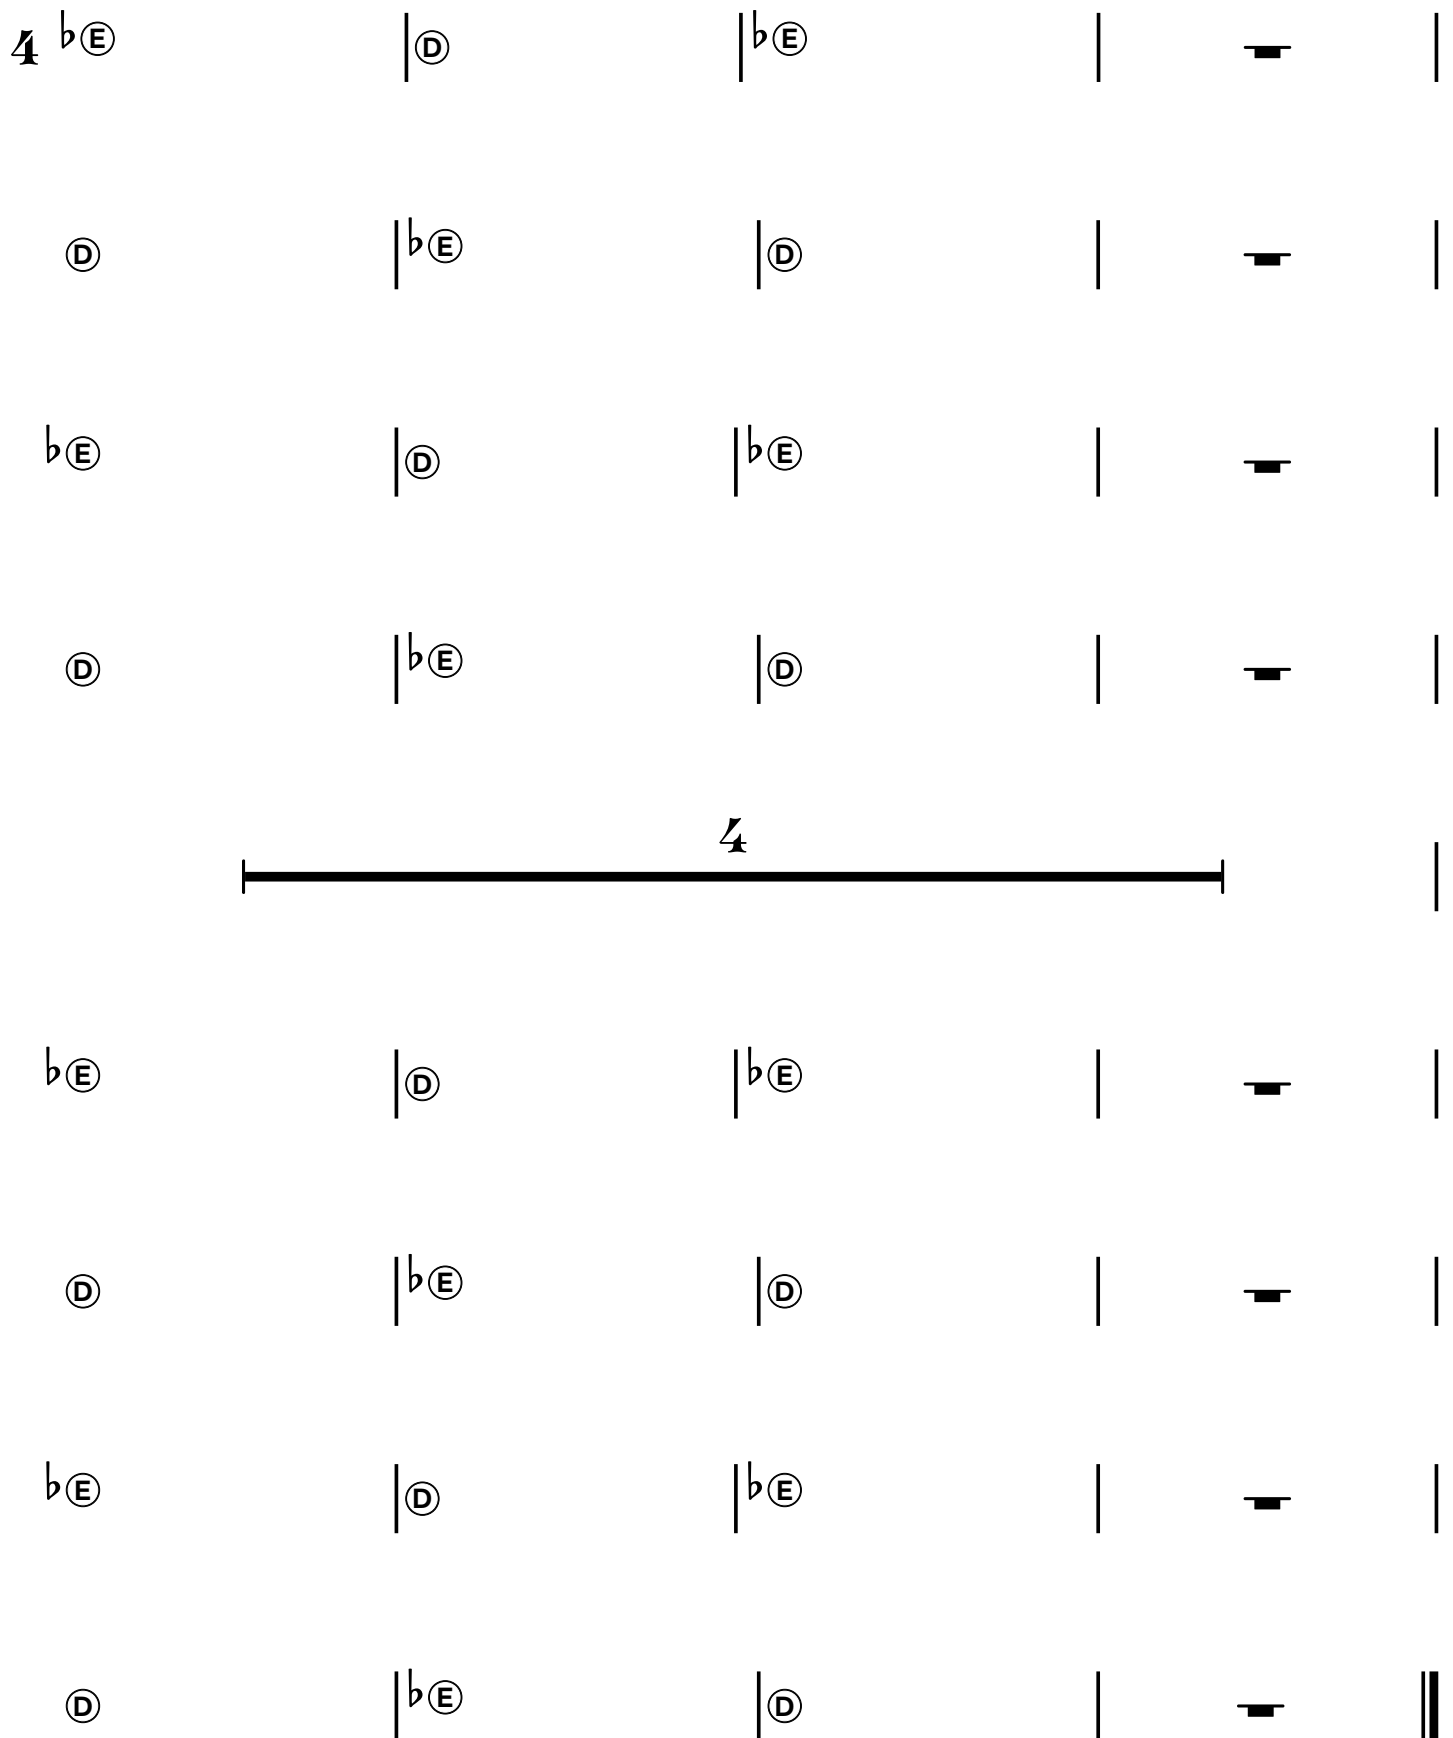

## Slide positions you need to know...

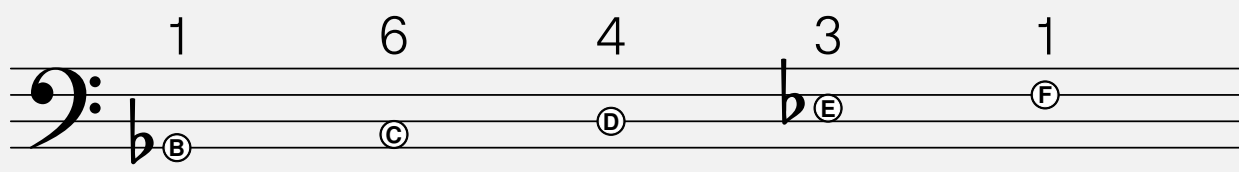

**Play this rhythm:**

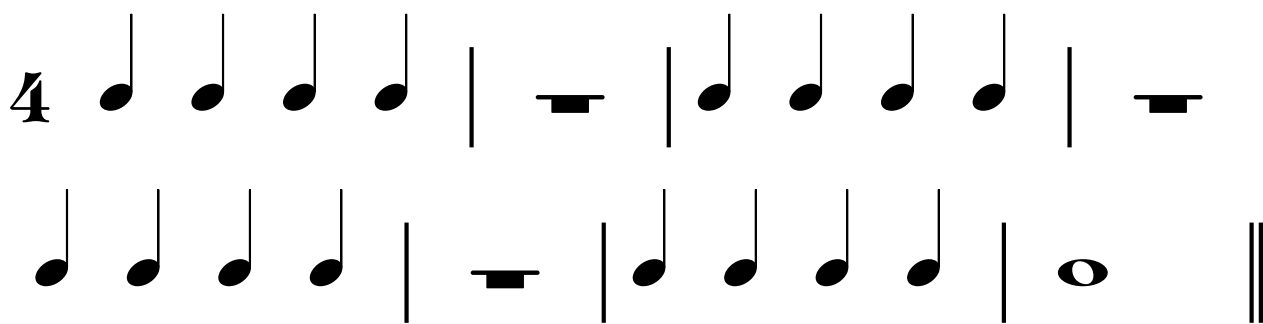

### 3. Rear View Mirror

## Slide positions you need to know...

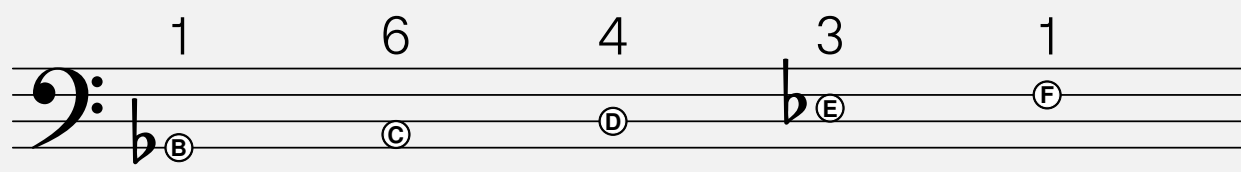

## Play this rhythm:

## 4. Turvytown

## Slide positions you need to know...

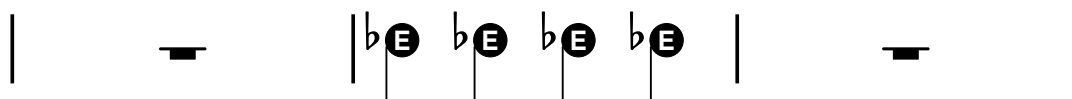

Have look at the tunes #1 *Hands Up!*, #2 *This is the Way* and #5 *One for the Road*. What do you notice?

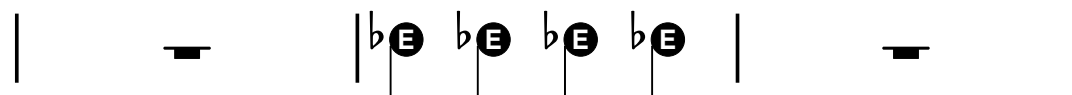

What makes these tunes sound so different?

# 5. One For The Road

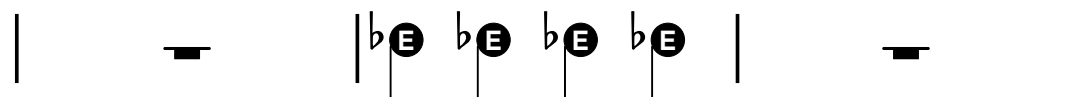

4 ④

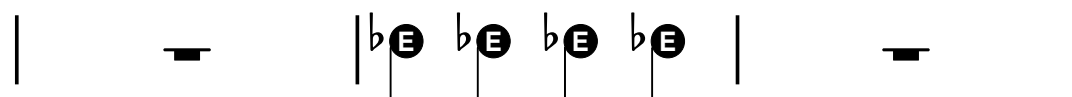

⑤

⑥

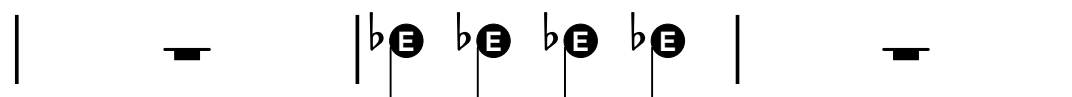

⑦

⑧

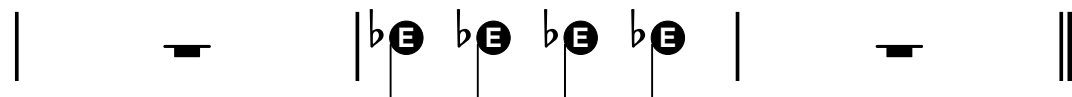

⑨

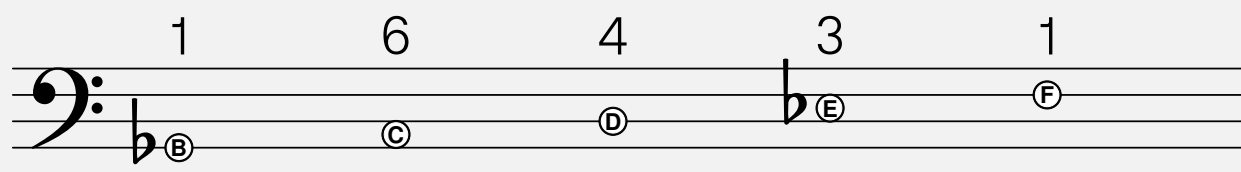

⑩

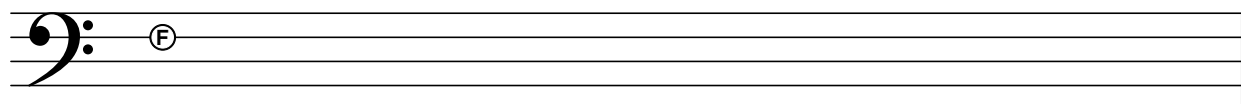

⑪

## Slide positions you need to know...

## New note!

## Check out this rhythm!

Notice how all the notes are in groups of four? We have four crotchets in one group. In the next, we have a semibreve, which is four beats long. Then we have a semibreve rest which also goes for four beats.

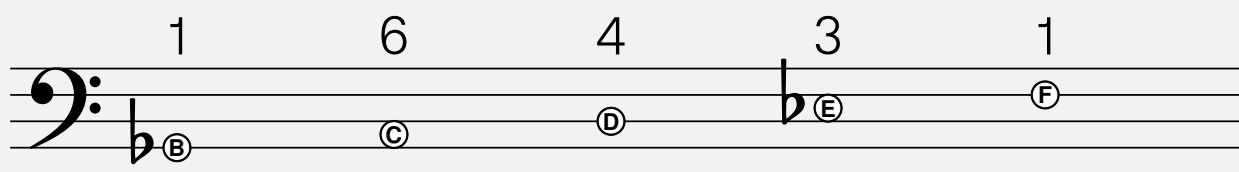

Each of these groups of four is called a *bar* and they're separated by *bar lines*. In the tunes we've seen, each bar has four beats in it. Tunes can have different numbers of beats per bar. You can tell how many beats are in each bar by looking at the *time signature*, which is the big number at the beginning of the music.

## 6. Concrete Jungle

4

|                                                                                                                                        |           |           |           |  |                                                                                     |  |          |          |          |          |  |                                                                                       |  |

## Slide positions you need to know...

## New rhythm symbol!

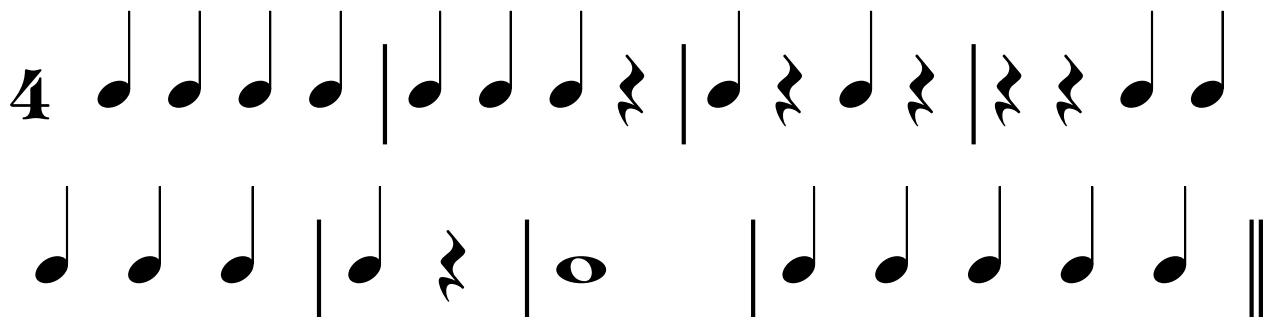

This is the crotchet or quarter note rest. It lasts for one beat.

## Play this rhythm:

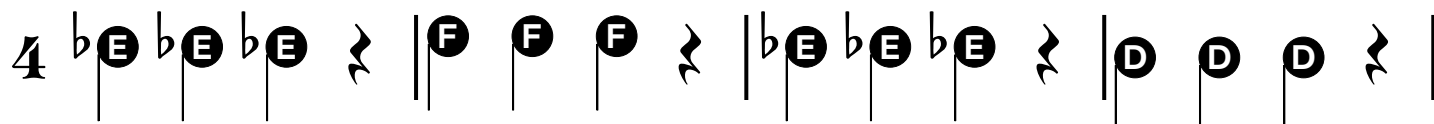

## Check out this rhythm!

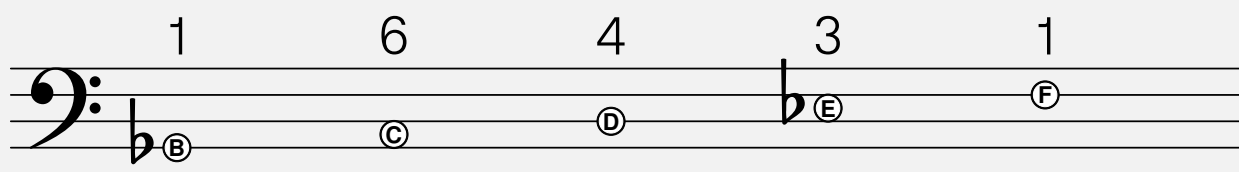

Do each of the bars have four beats? Mark any incorrect bars.

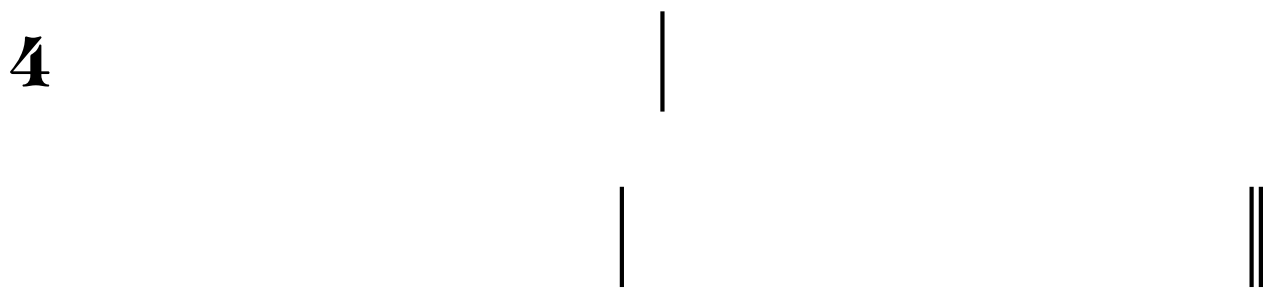

## 7. Lucidity

## Slide positions you need to know...

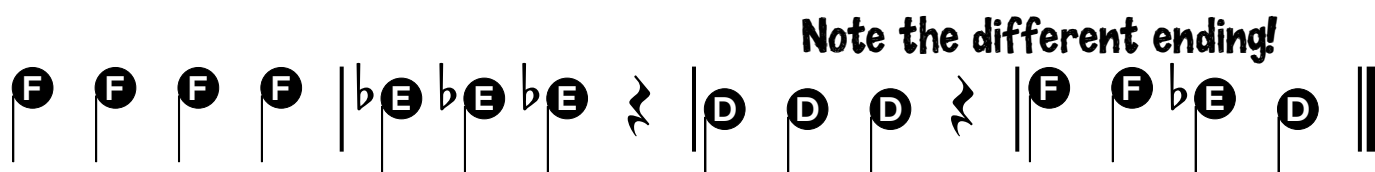

**Write your own tune using the notes you know**

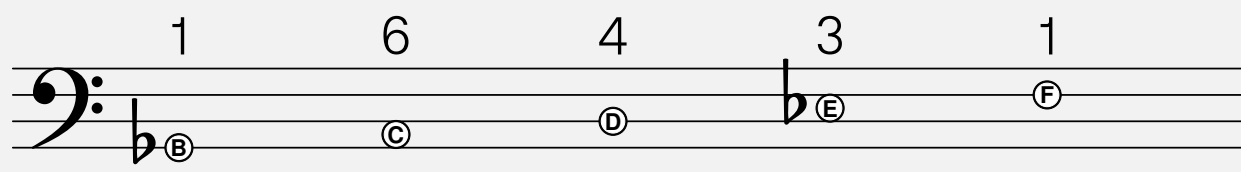

Draw the notes on the lines, and write the letters underneath. Check that each bar has four beats.

Try playing your tune to a friend, or maybe play theirs for them!

## 8. The Heath Street Hustle

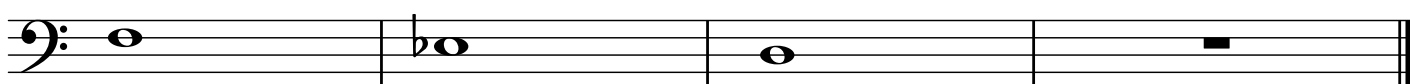

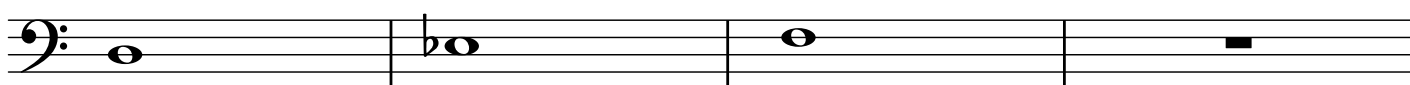

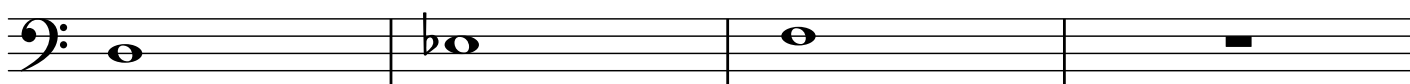

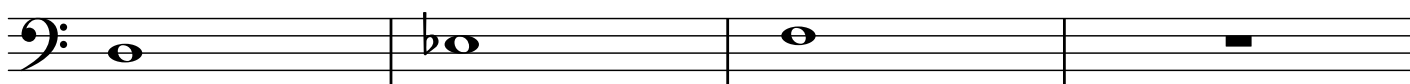

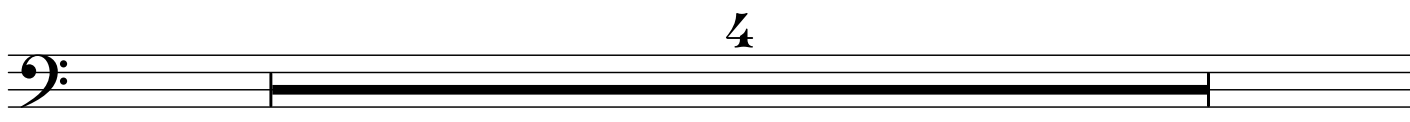

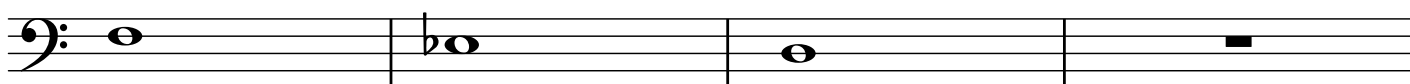

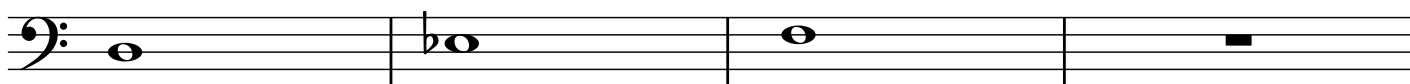

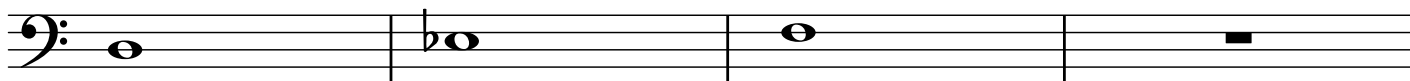

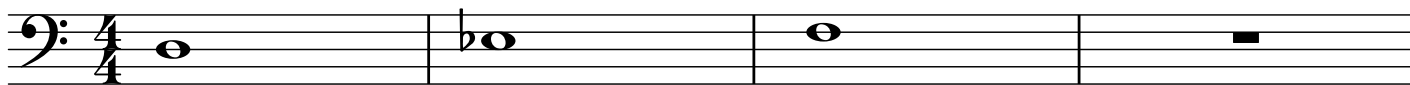

## Slide positions you need to know...

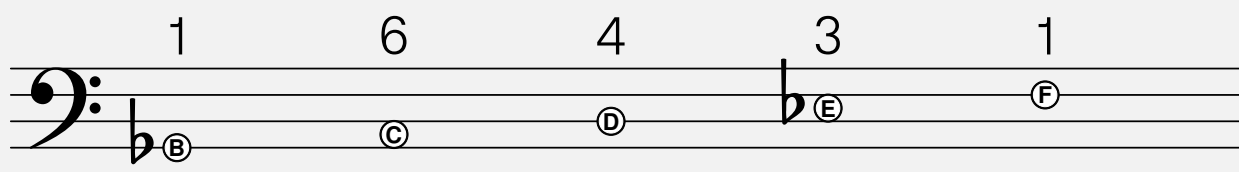

Look at those notes closely. You'll notice that they don't line up properly. Some notes are higher than others. Why do you think that might be?

## 9. Hurkle Durkle

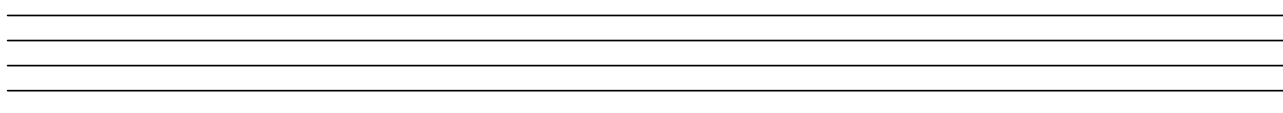

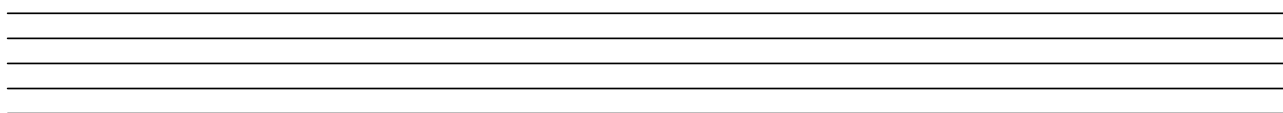

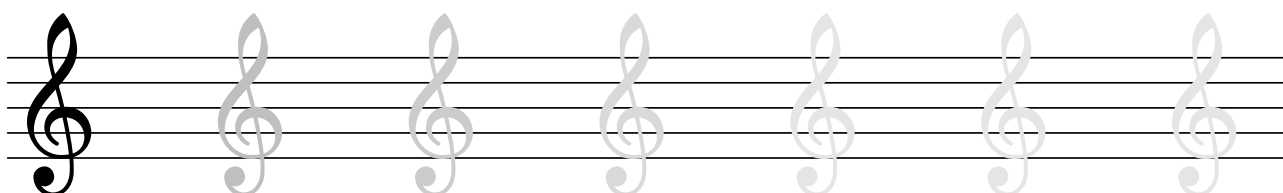

## Slide positions you need to know...

Time to get drawing!

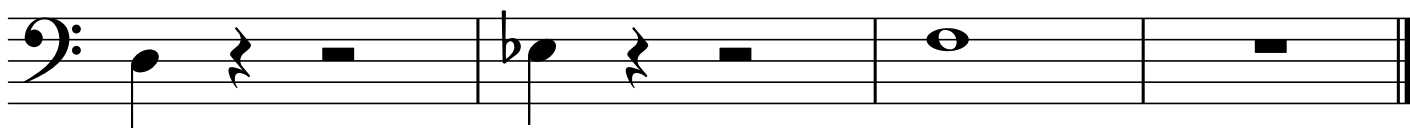

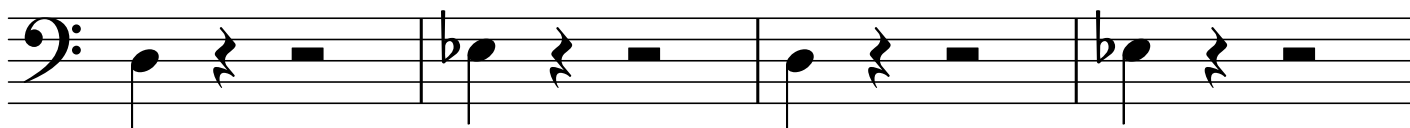

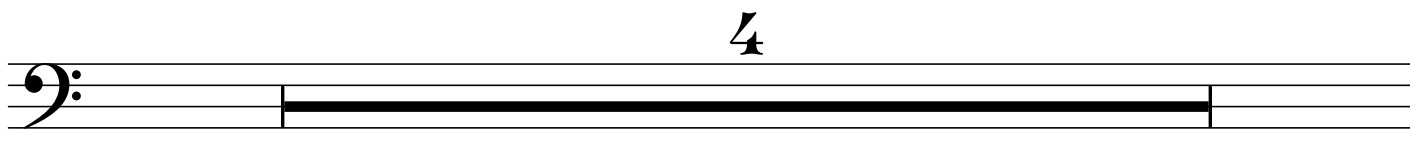

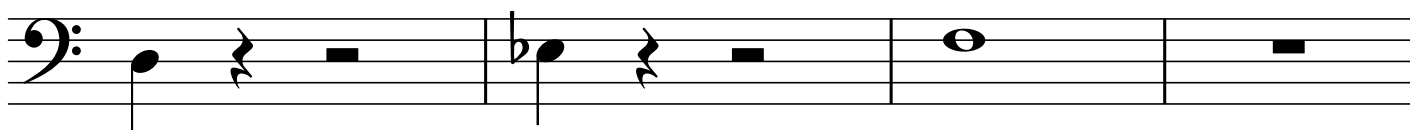

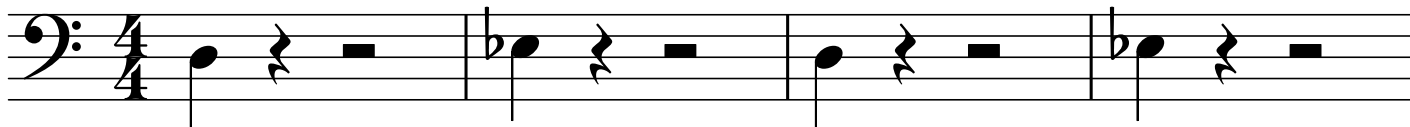

Trace over each of the grey clefs. Once you've finished those, try drawing them on the empty staves.

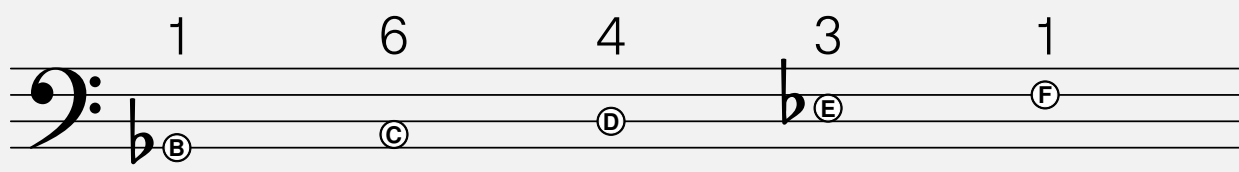

On the staves with a **treble** clef, trace over the line G with a coloured pencil.

On the staves with a **bass** clef, trace over the line F with a coloured pencil.

## 10. Wherever You May Be

## Slide positions you need to know...

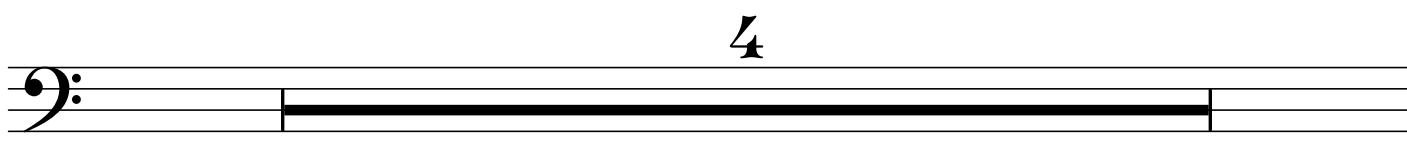

**Play this rhythm:**

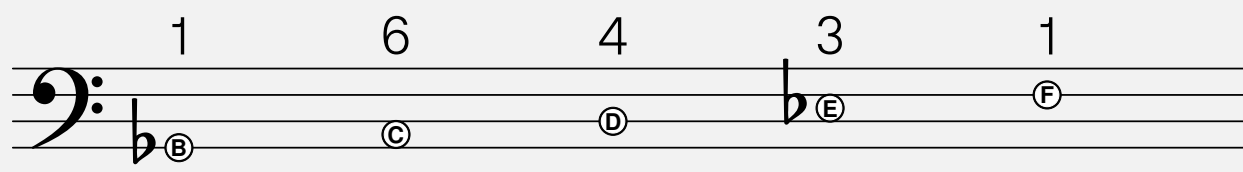

# 11. From the Beginning to the End

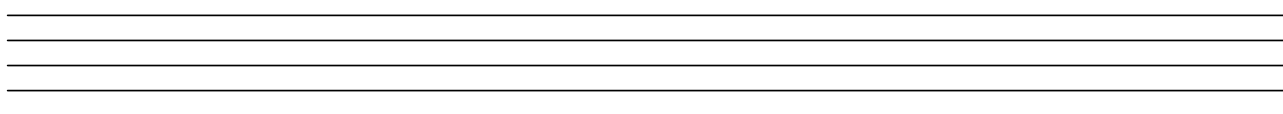

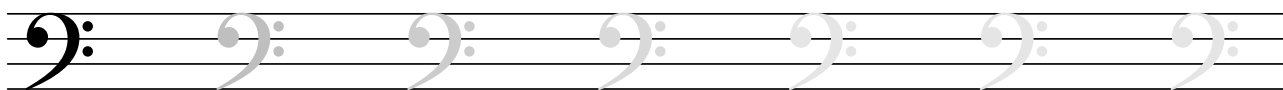

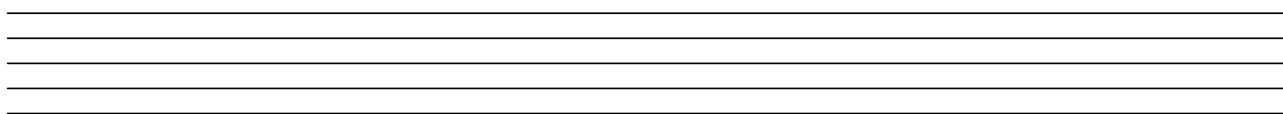

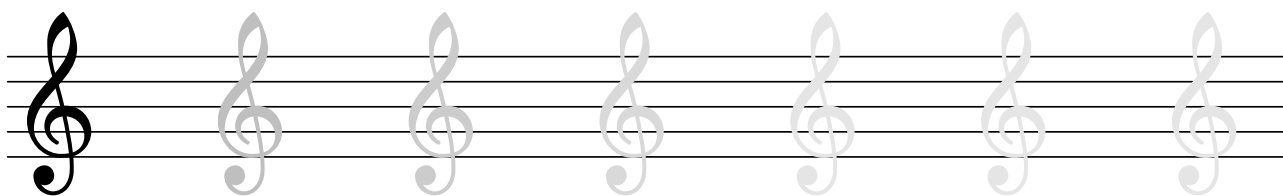

Melody by Kaitlyn Radzimanowski

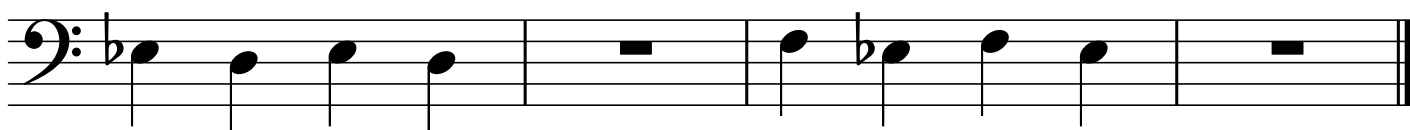

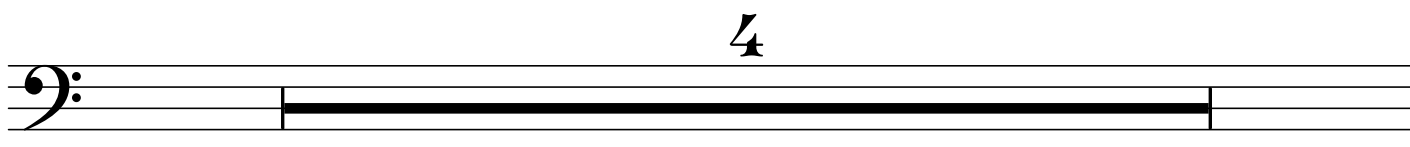

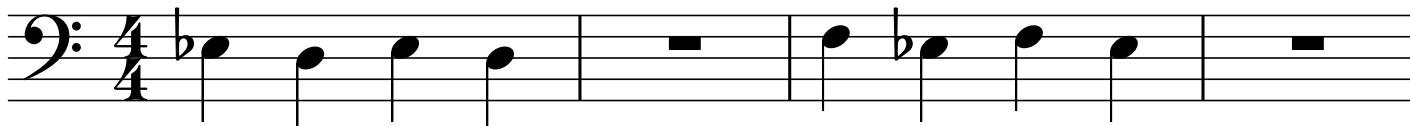

## Slide positions you need to know...

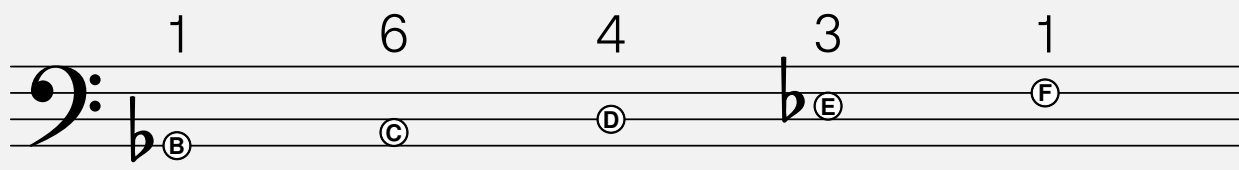

Draw these clefs. Again.

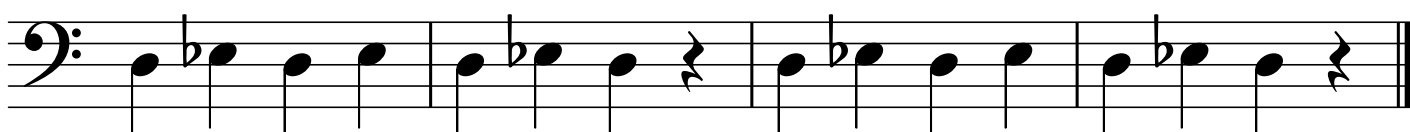

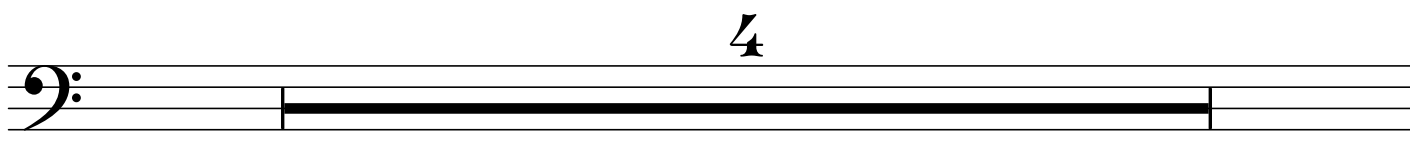

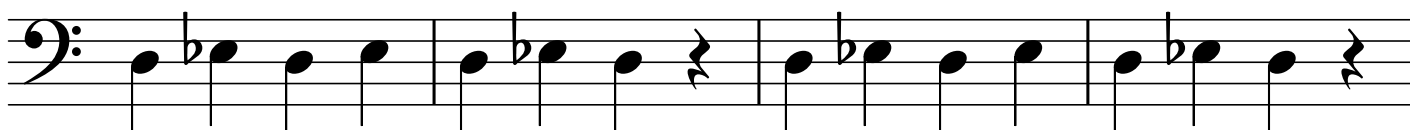

## 12. Brainrot

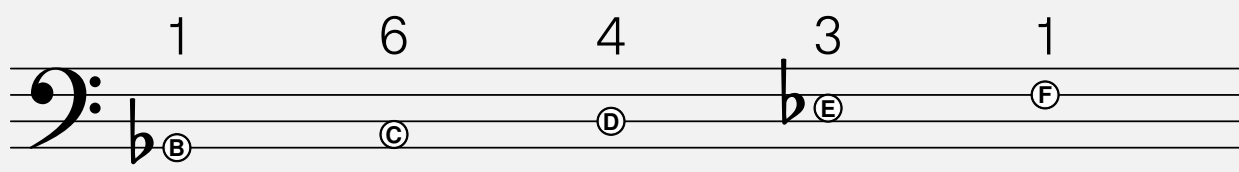

## Slide positions you need to know...

## 13. Cobbler's Load

## Slide positions you need to know...

## New rhythm symbol!

## Check out this rhythm!

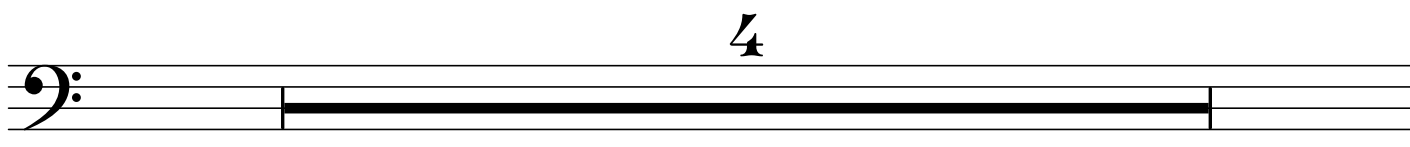

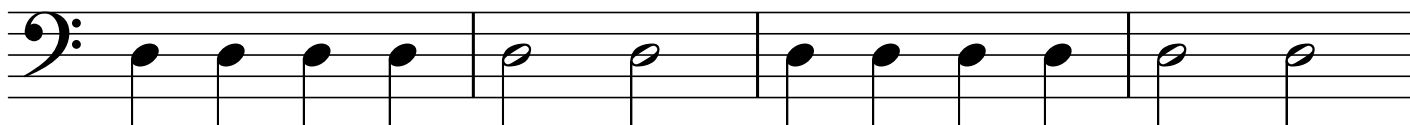

Does it have four beats in each bar?

Draw 4 minims.

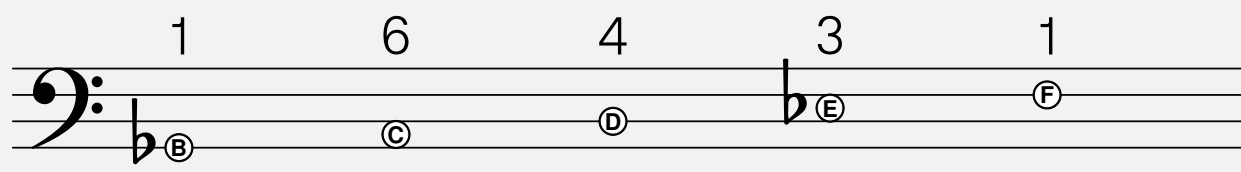

Draw 4 crotchets.

Draw 4 semibreves.

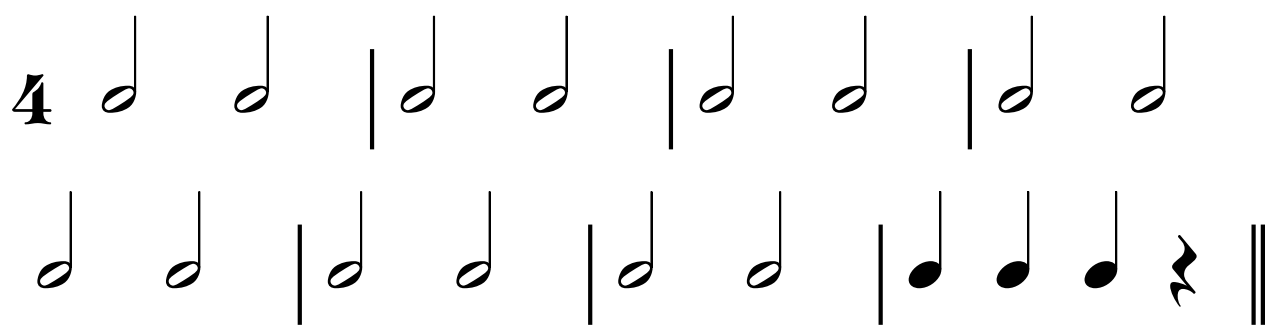

## 14. Drifting

## Slide positions you need to know...

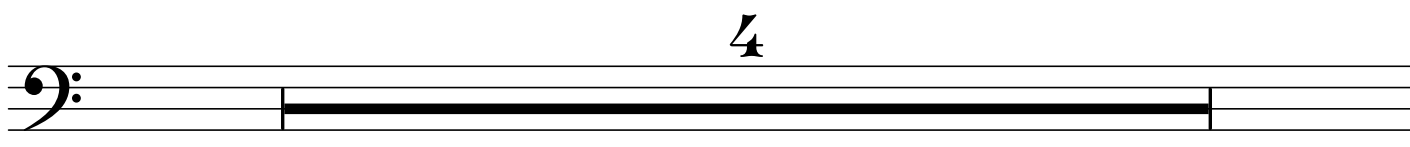

## Play this rhythm:

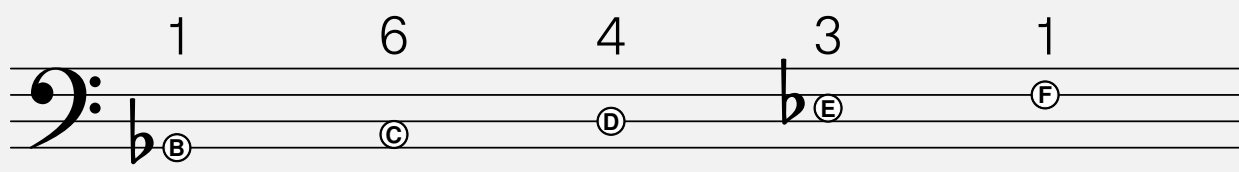

Check: Are there four beats in every bar?

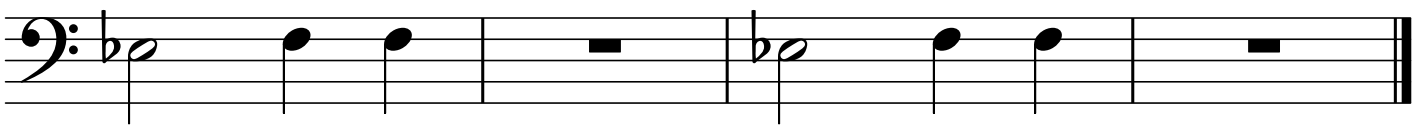

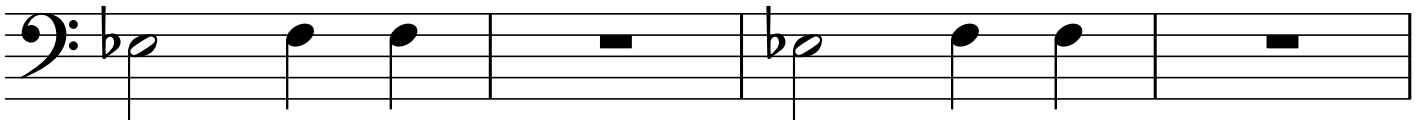

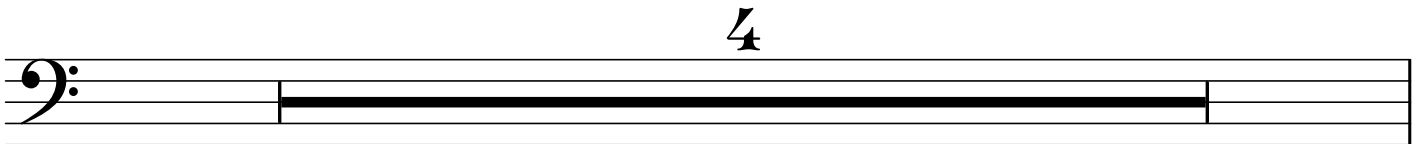

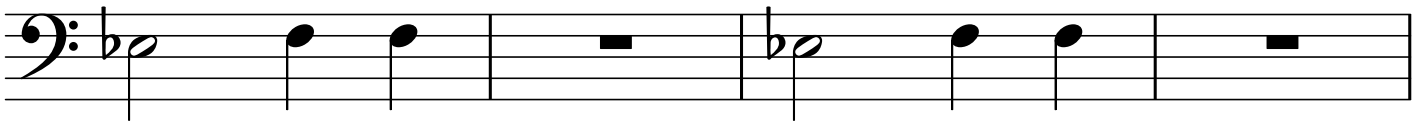

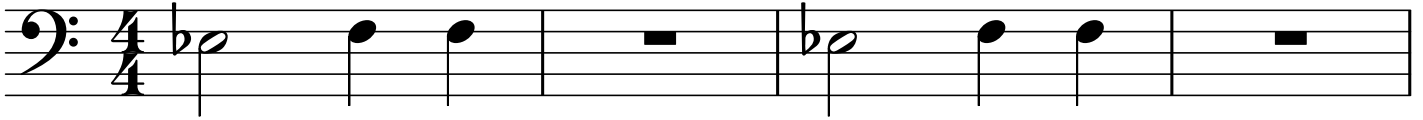

## 15. Peter's Last Stand

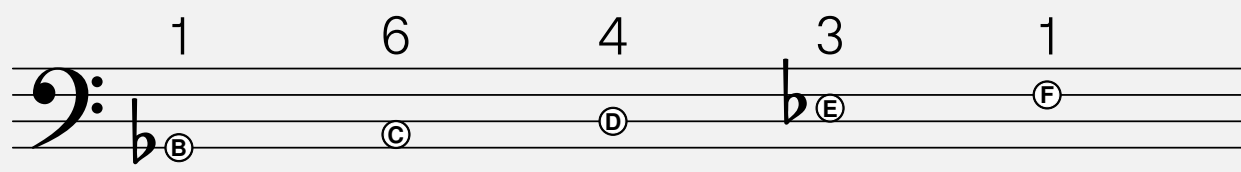

## Slide positions you need to know...

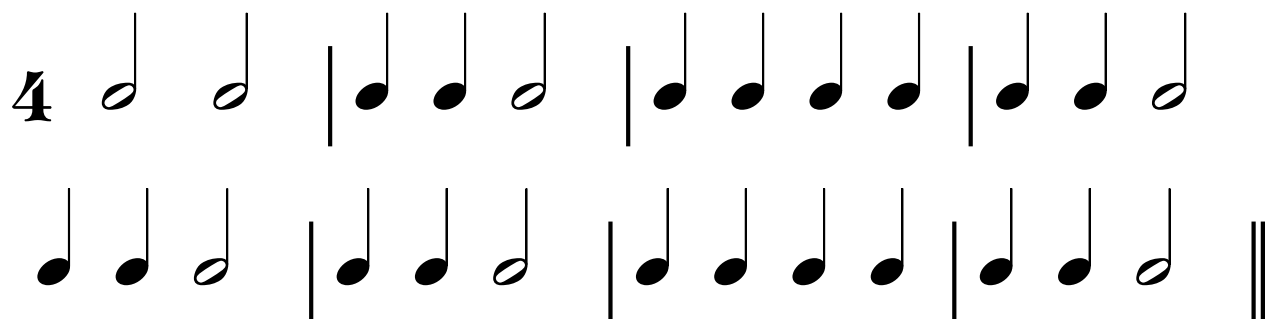

## 16. Seeset

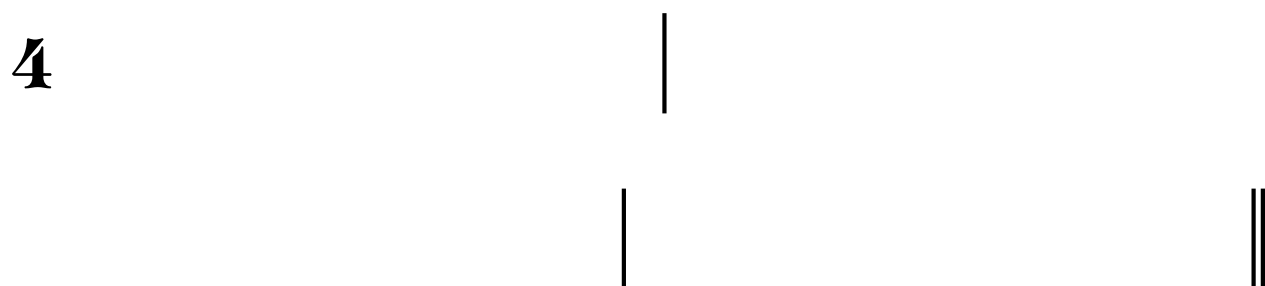

## Slide positions you need to know...

**Play this rhythm:**

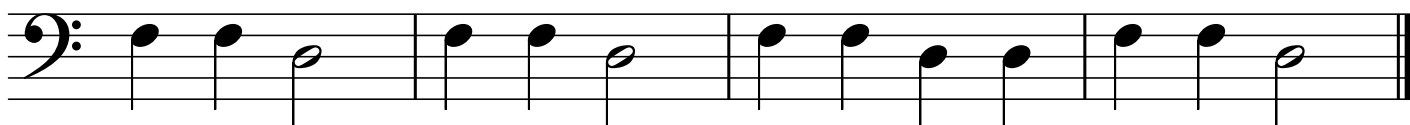

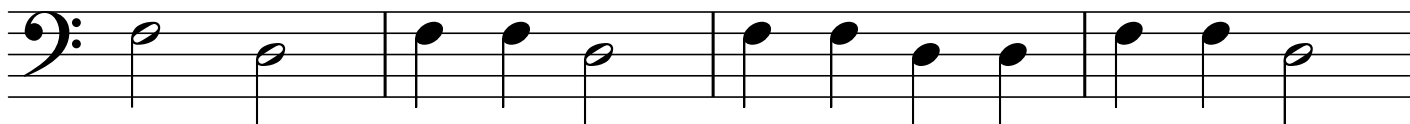

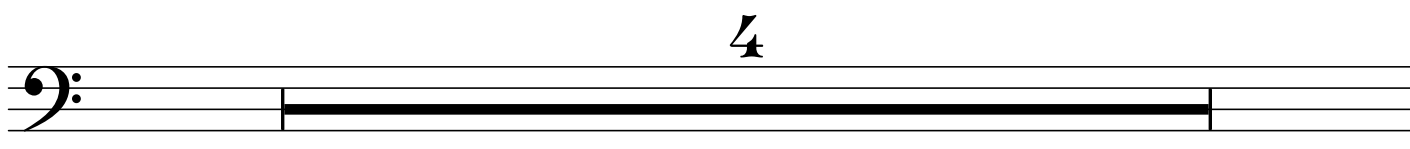

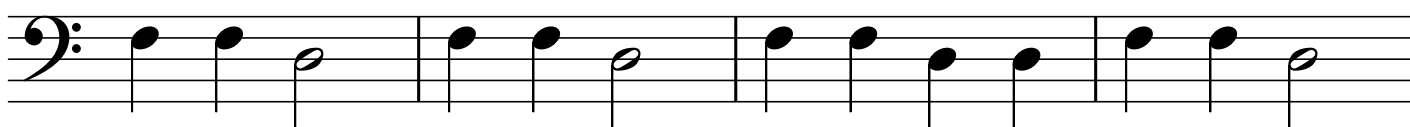

**Write your own 4-bar rhythm using the notes you know:**

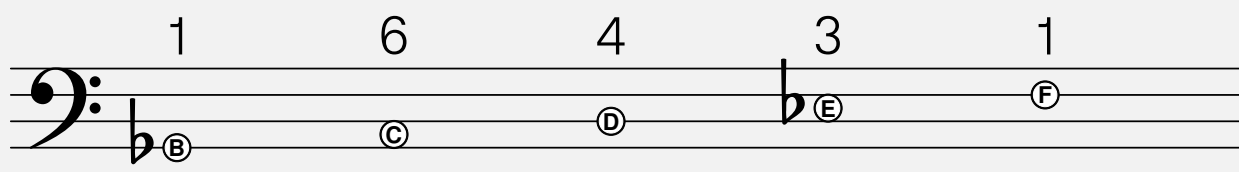

# 17. Rain, Rain Go Away

Traditional

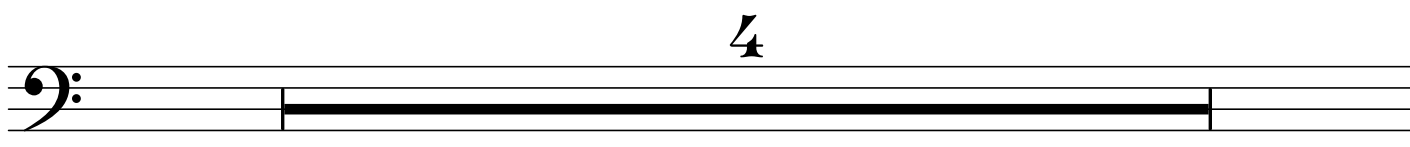

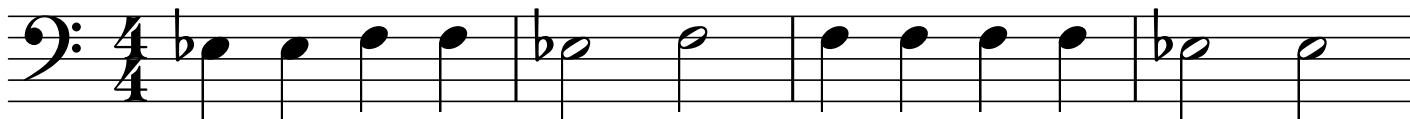

## Slide positions you need to know...

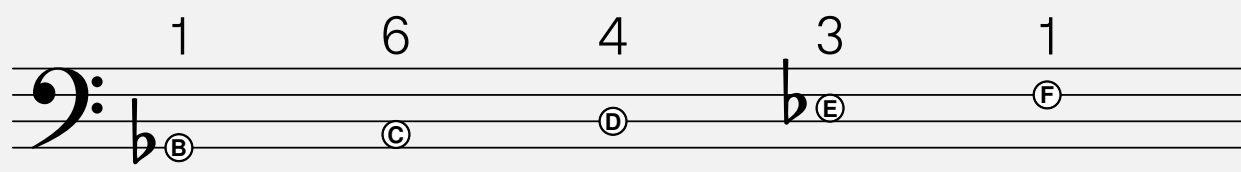

**Play this rhythm:**

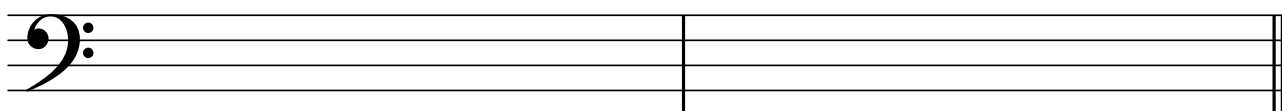

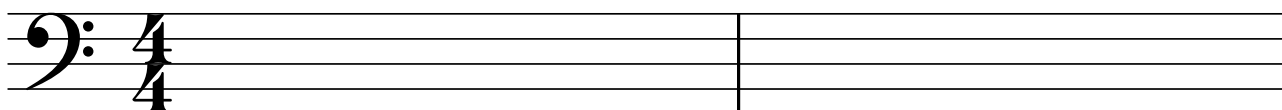

## 18. Somnambulism

## Slide positions you need to know...

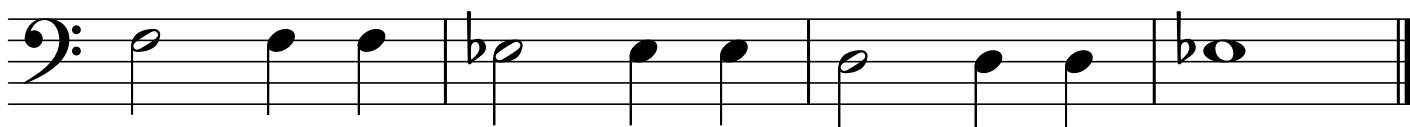

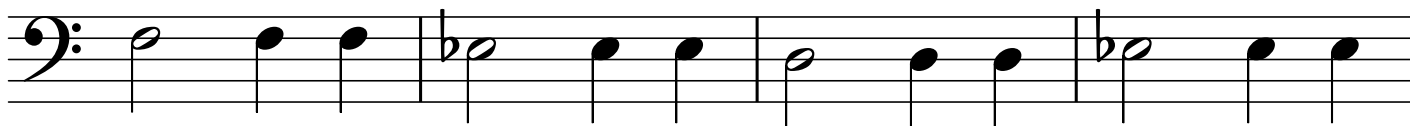

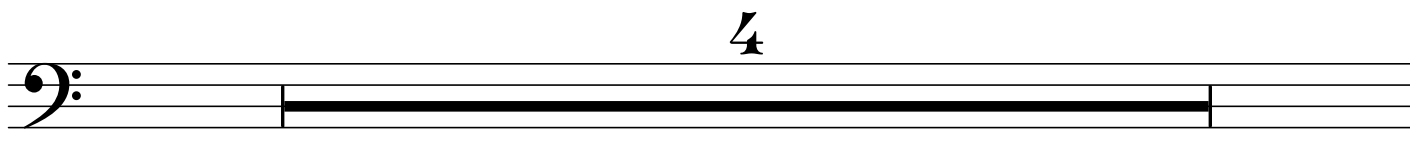

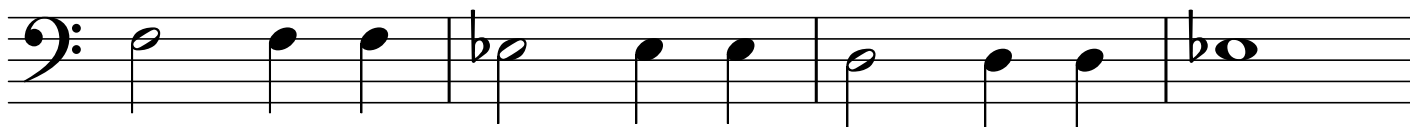

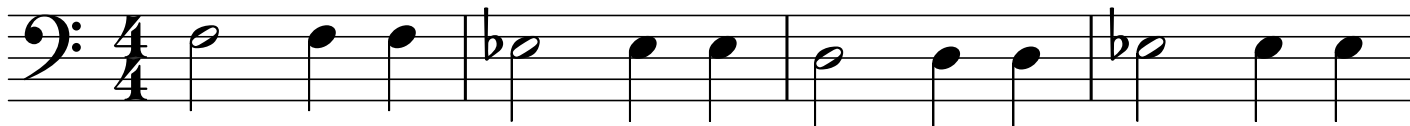

Write a tune using the notes you know.

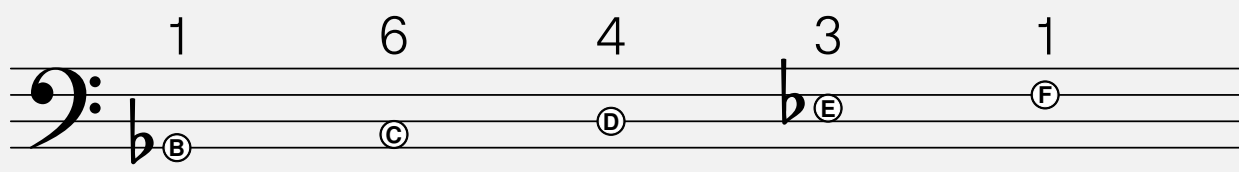

Don't forget to add flats (b) to your E-flats!

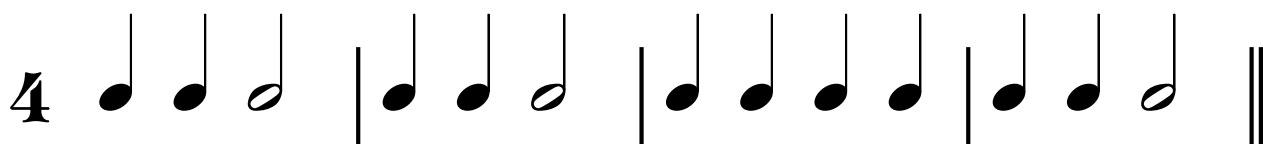

## 19. Green Great Dragon

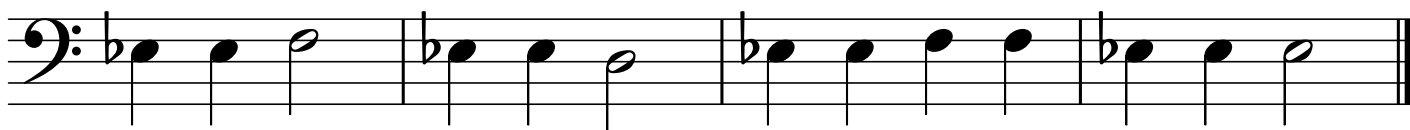

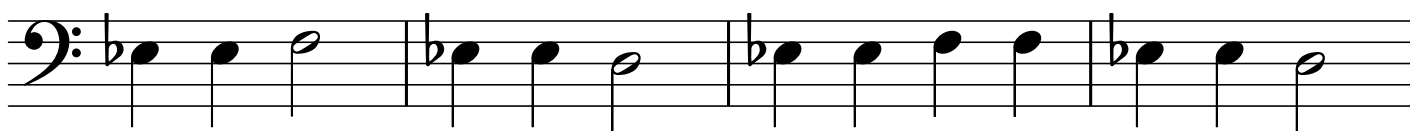

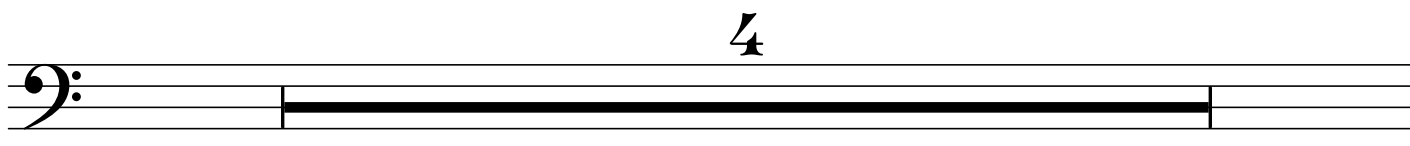

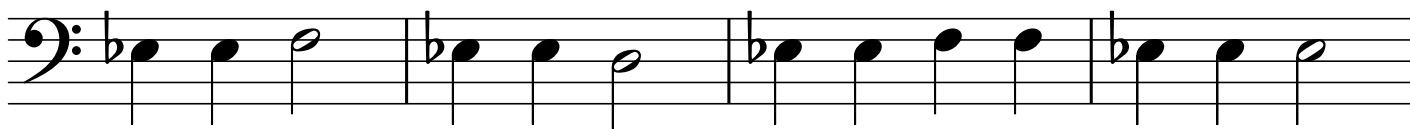

## Slide positions you need to know...

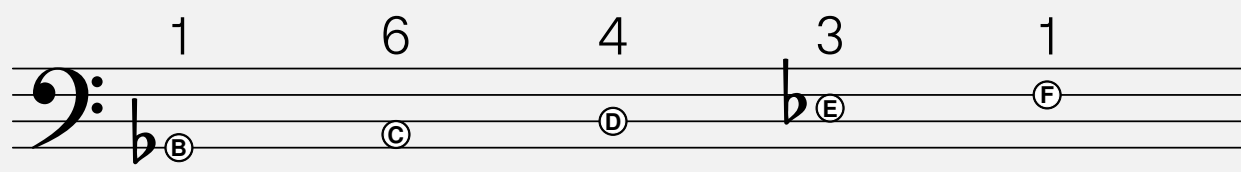

**Play this rhythm:**

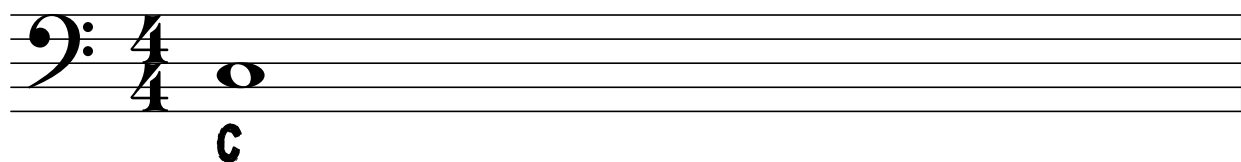

## 20. Nuggie Nugs

## Slide positions you need to know...

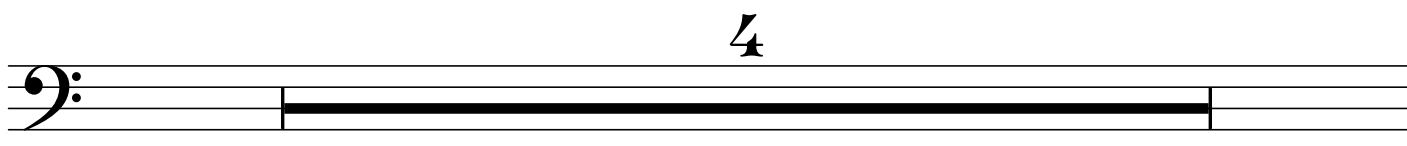

### **New note!**

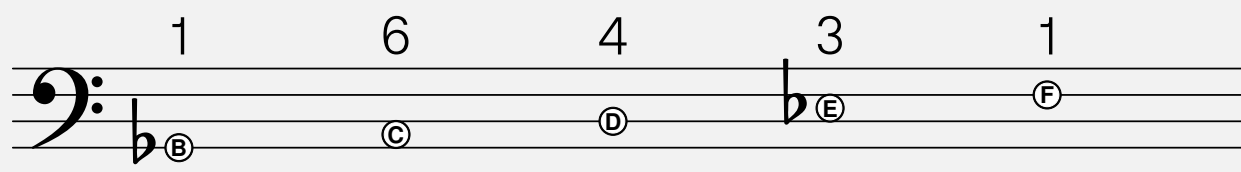

The note C is tricky because you have to put the slide all the way out to position 6! If you have trouble getting all the way out there, just put the slide out as far as you can without stretching. The note won't be quite right, but it's more important that your mouthpiece is sitting on your lips properly.

## 21. Day At The Beach

## Slide positions you need to know...

## Play this rhythm:

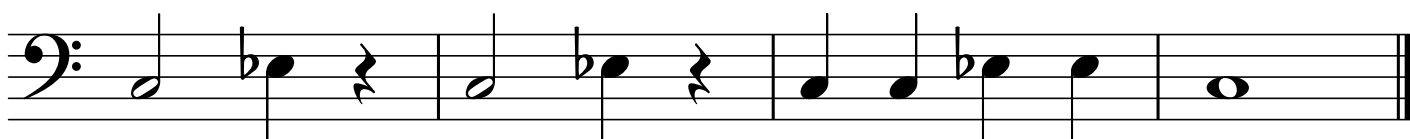

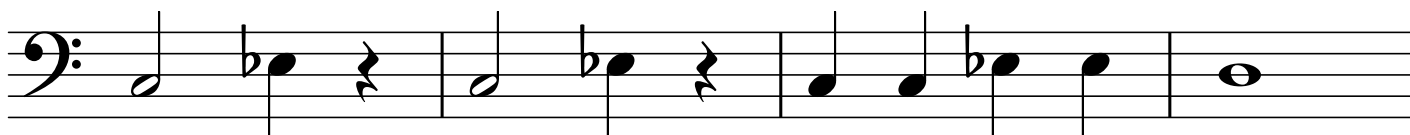

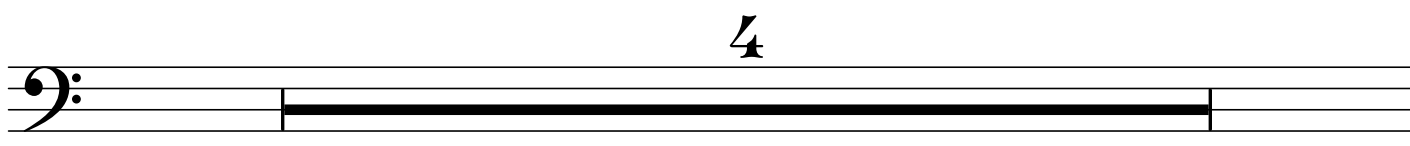

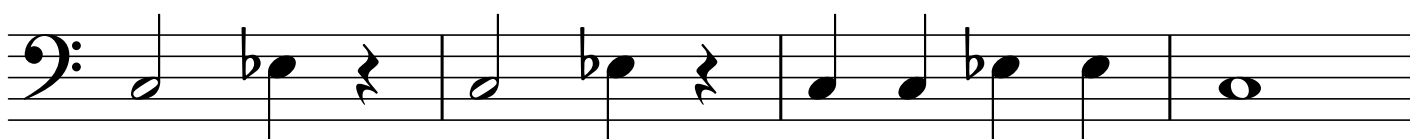

Check: does it have the correct number of beats in every bar?

You'll notice in this tune that the note C seems upside down! That's because when the note is on the bottom half of the staff, we usually make the stem go *up*, not *down*. If the note is on the middle line (D) the stem can go either up or down.

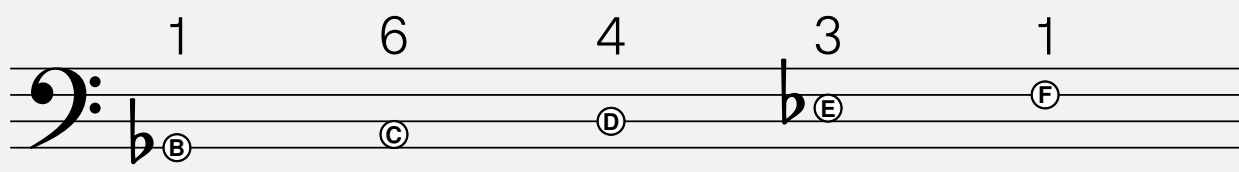

The important thing to remember is that you play it *exactly the same way as if it were any other note*. The only difference is how it looks, not how you play it.

## 22. Heebie Jeebies

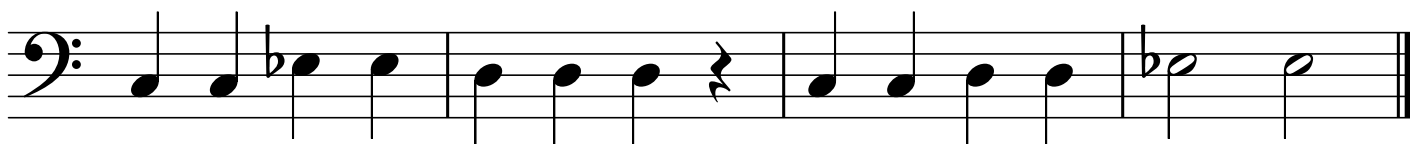

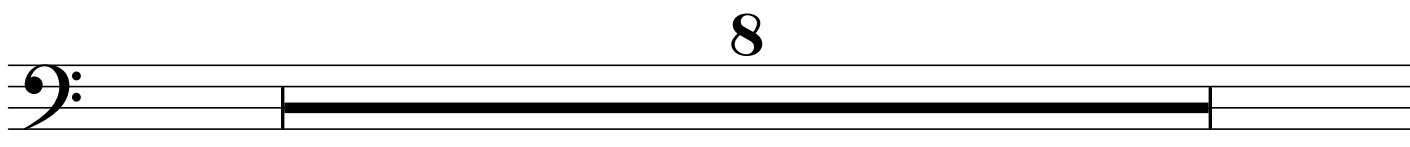

Analeigh Anderson

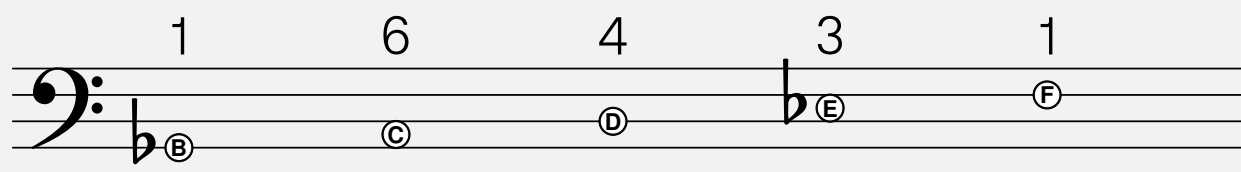

## Slide positions you need to know...

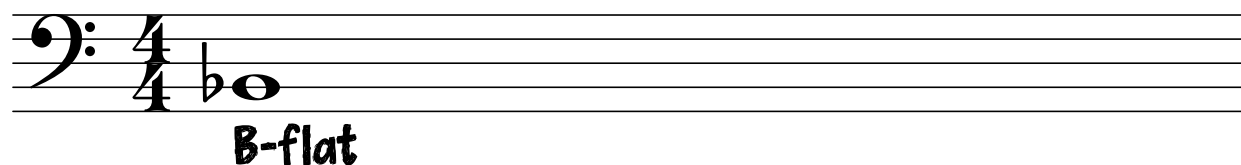

## 23. Waving, Not Raving

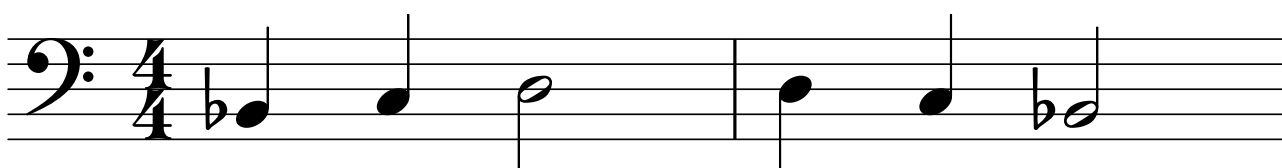

## Slide positions you need to know...

### New note!

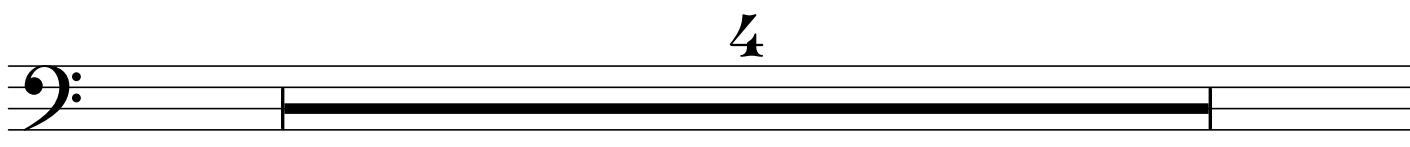

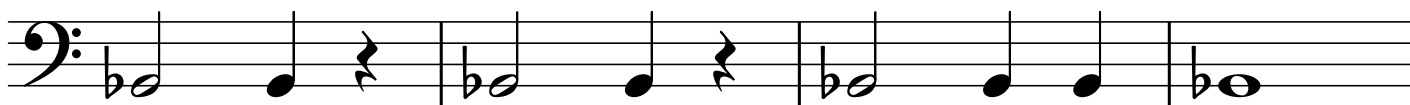

### Three-up Three-down

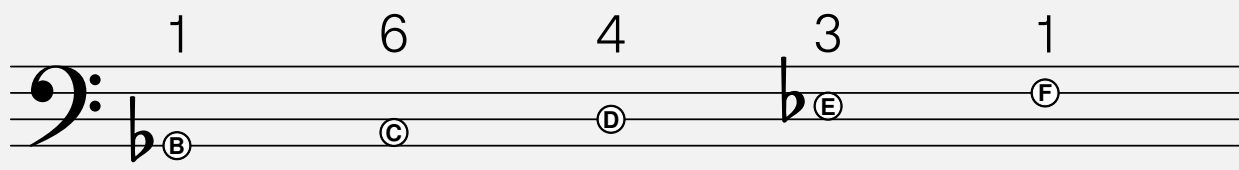

You will need to be able to play this from memory for your pink belt, so get on it!

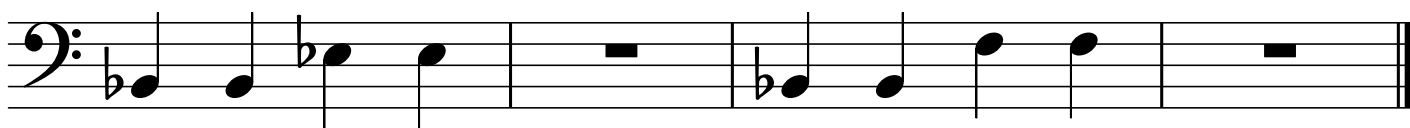

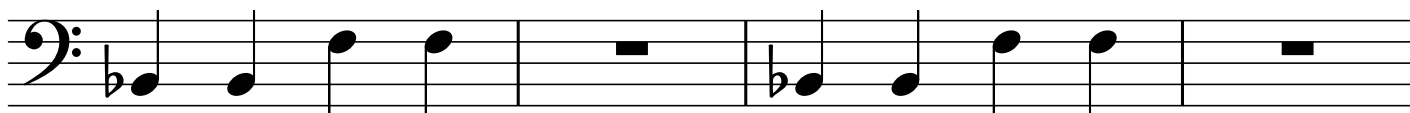

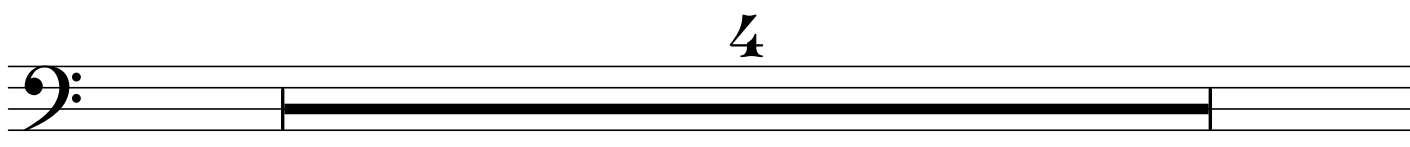

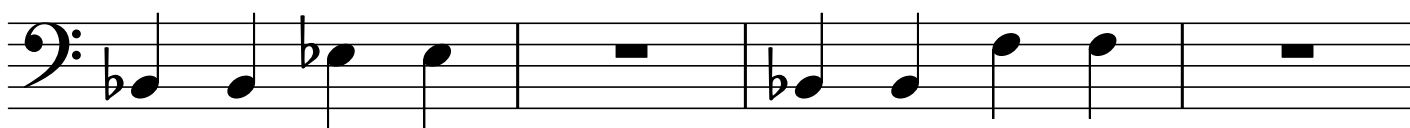

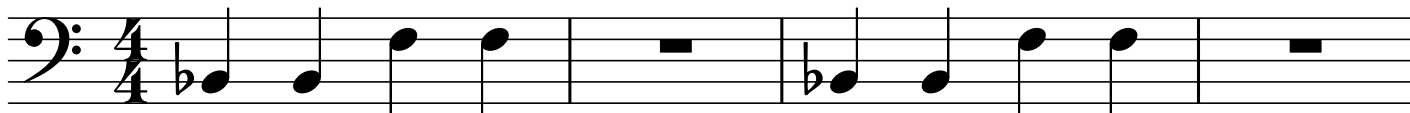

## 24. Another Look

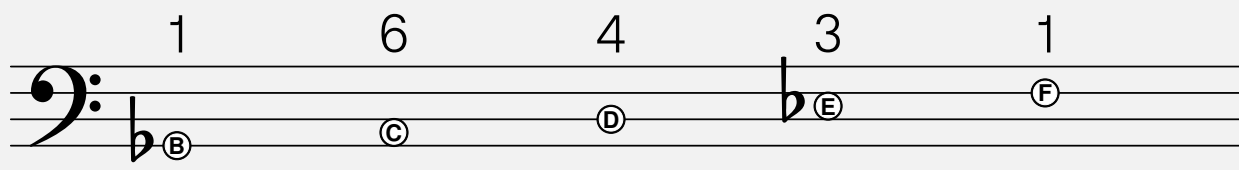

## Slide positions you need to know...

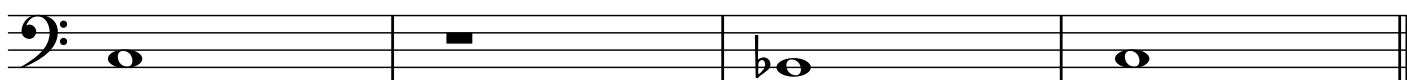

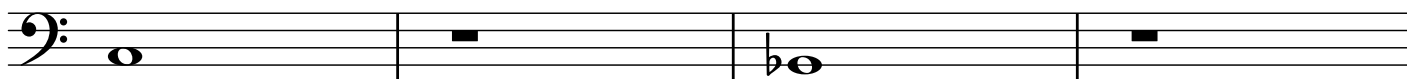

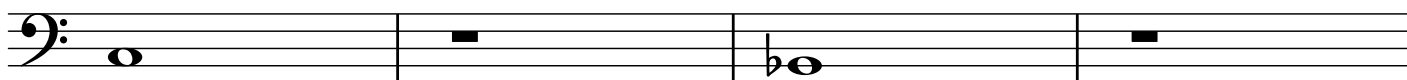

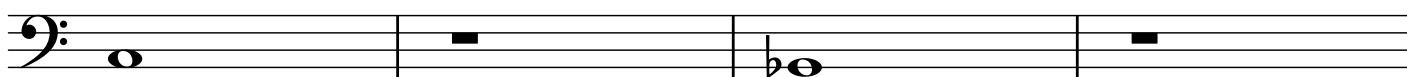

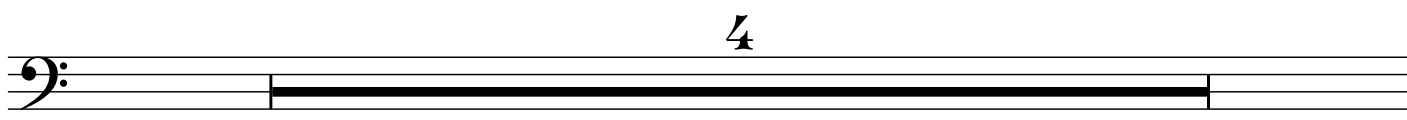

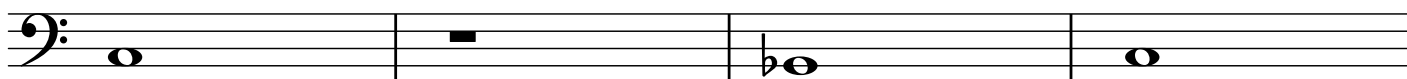

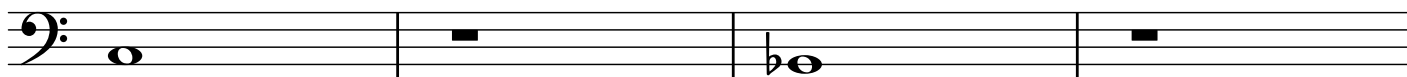

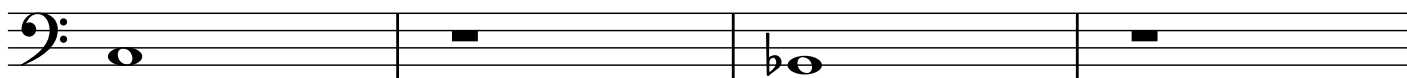

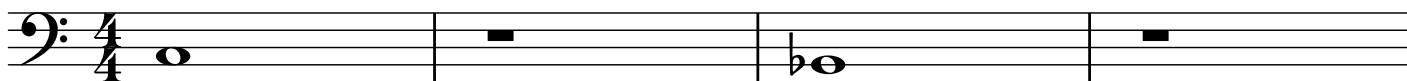

## 25. Five And Four

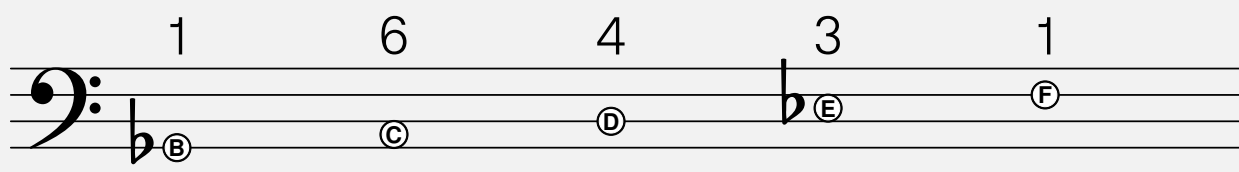

## Slide positions you need to know...

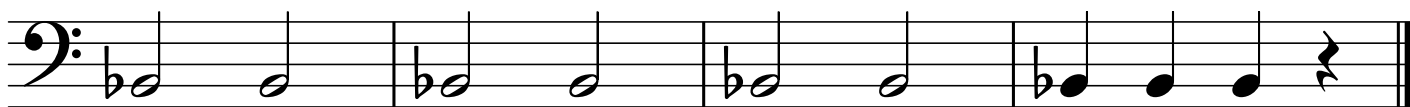

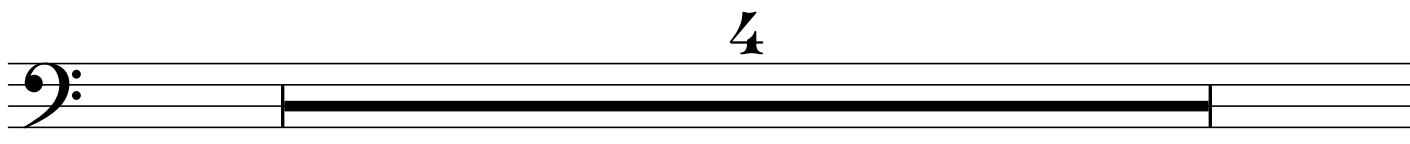

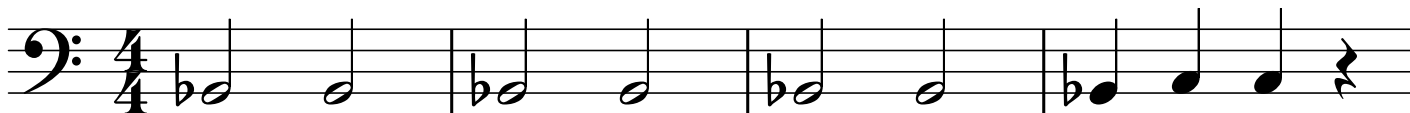

## 26. Brewing Coffee

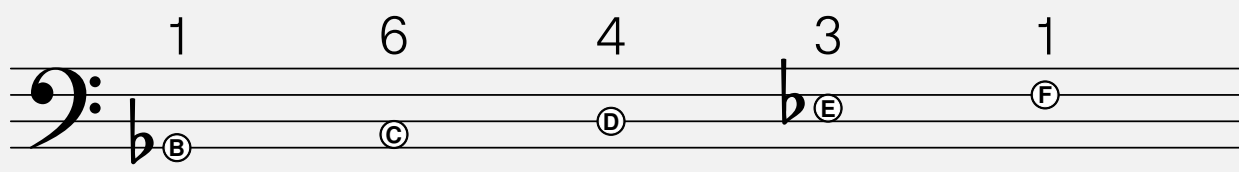

## Slide positions you need to know...

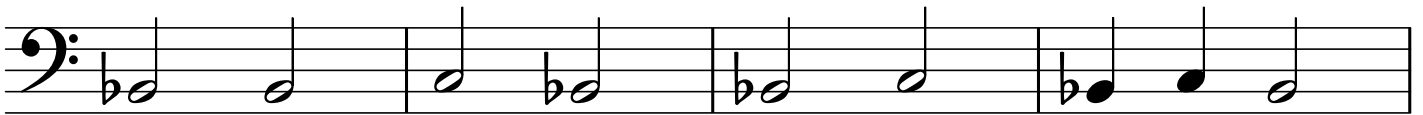

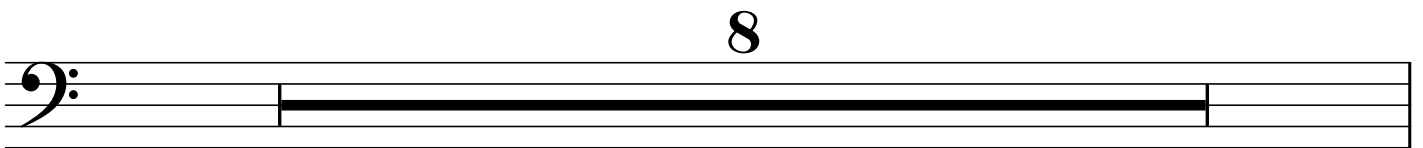

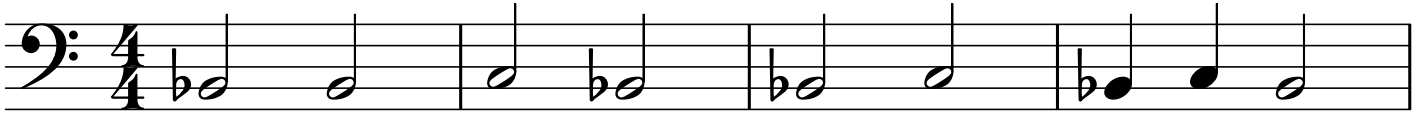

## 27. Maximum Mayhem

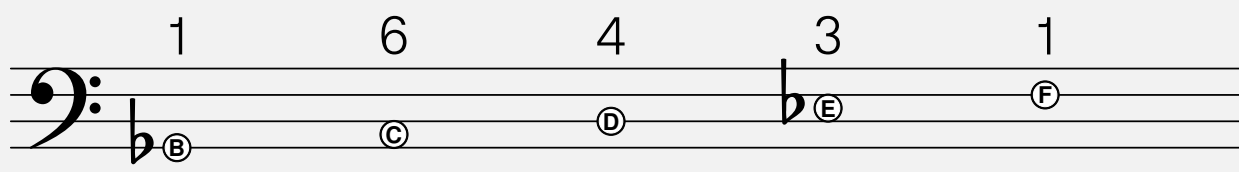

## Slide positions you need to know...

## 28. Pressing On

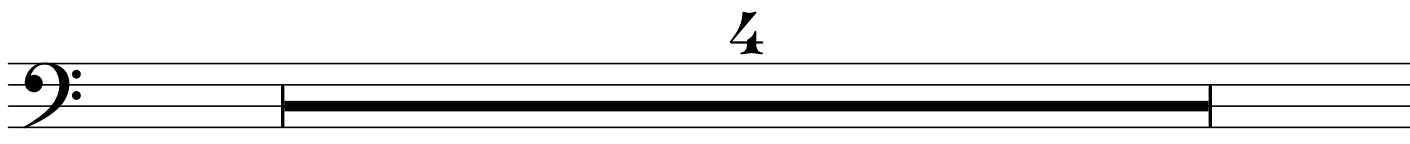

## Slide positions you need to know...

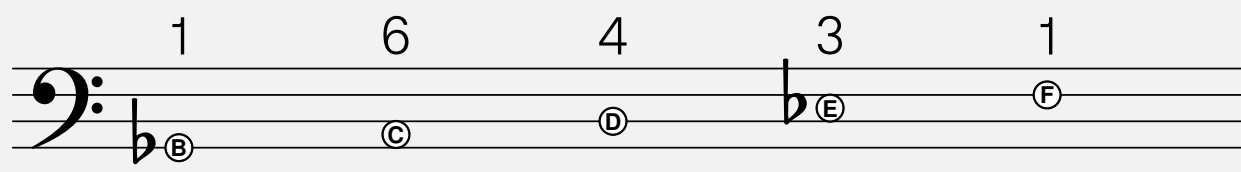

## Play this rhythm:

## 29. Salty Toes

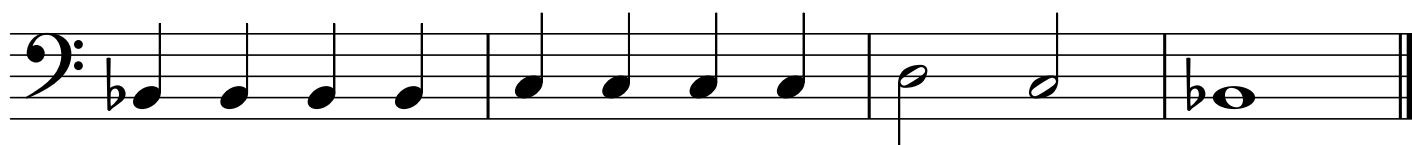

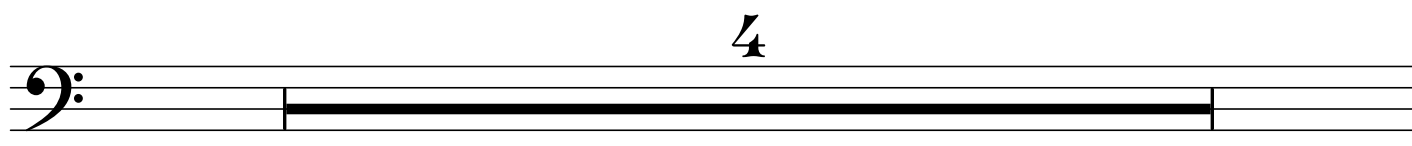

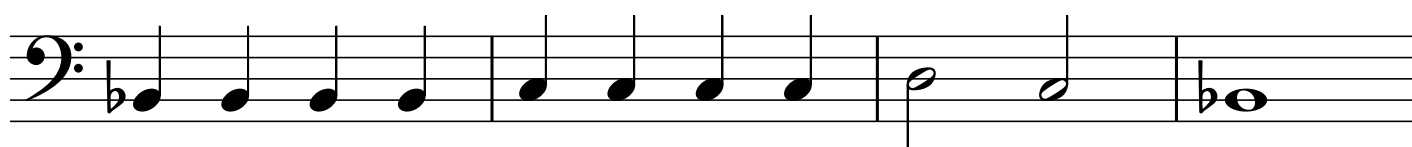

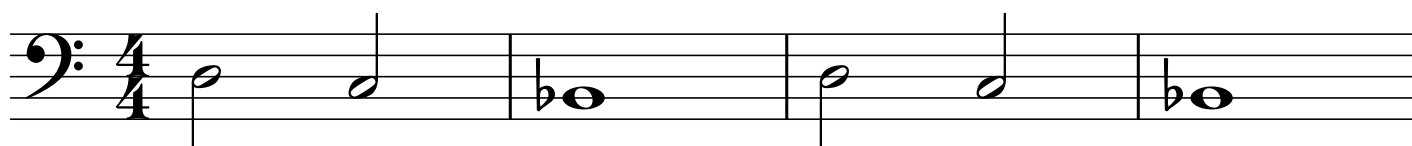

## Slide positions you need to know...

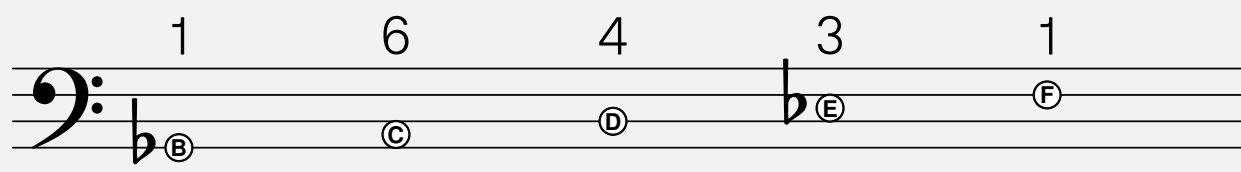

# 30. Hot Cross Buns

Traditional

## Slide positions you need to know...

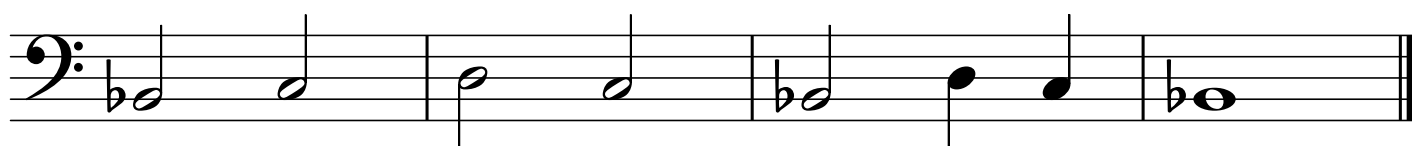

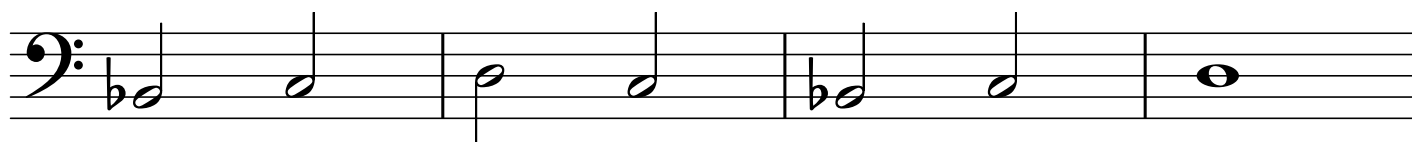

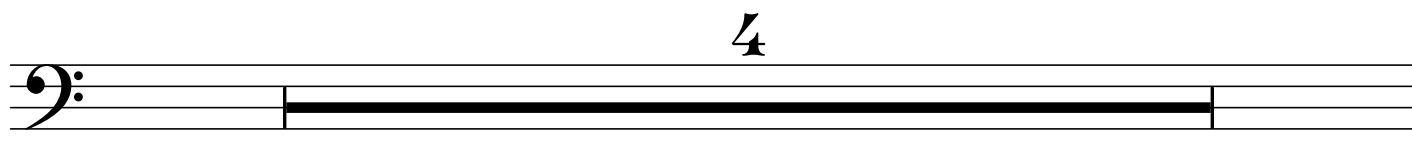

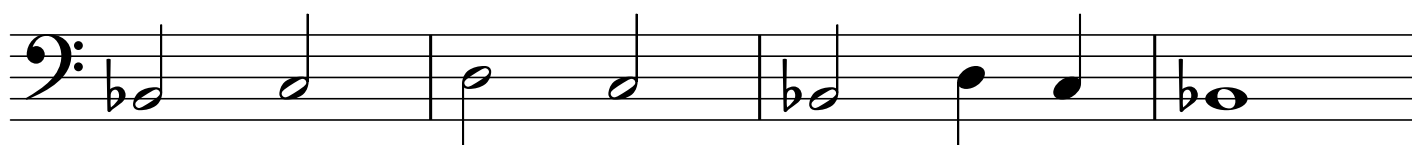

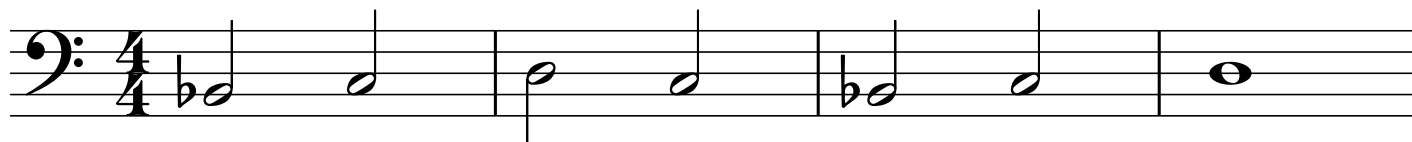

## Four-up Four-down

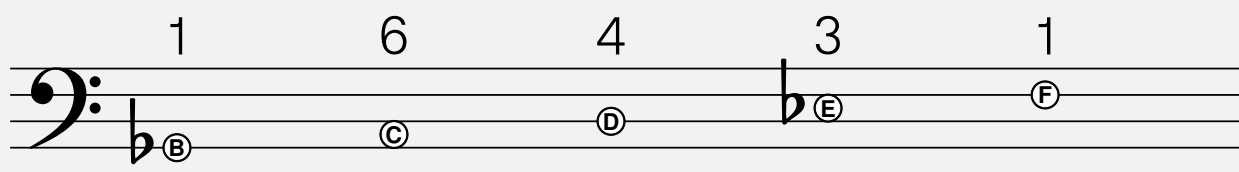

You will need to be able to play this from memory for your purple belt, so get on it!

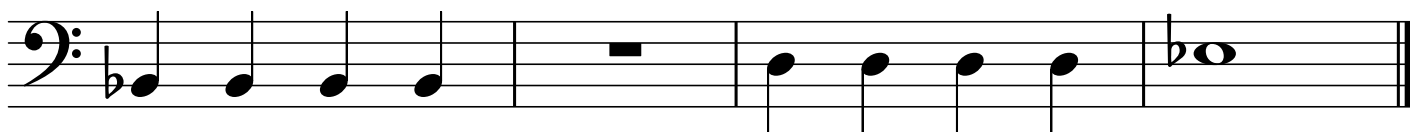

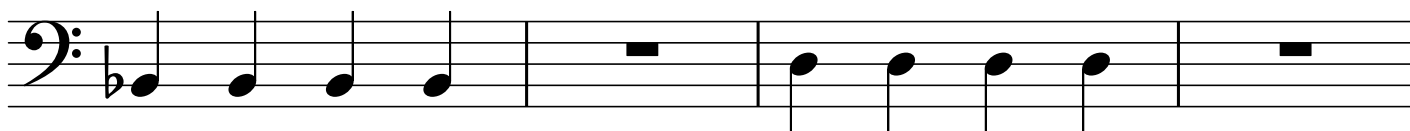

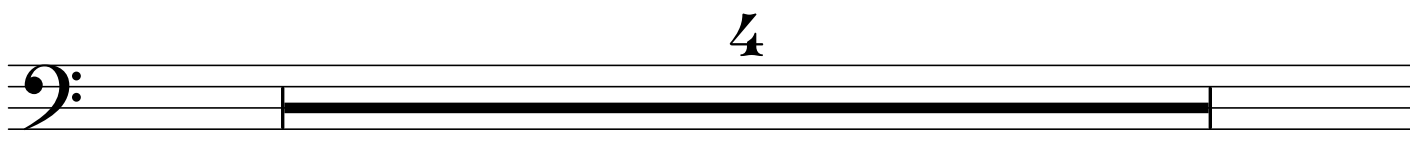

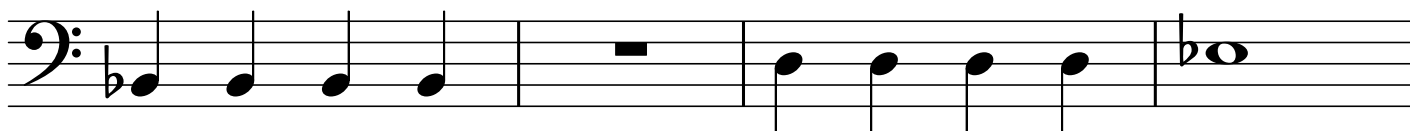

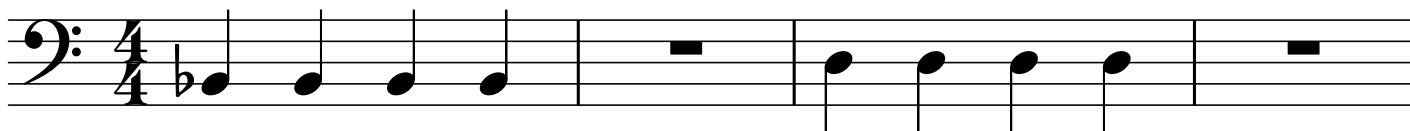

# 31. Joe's Mama

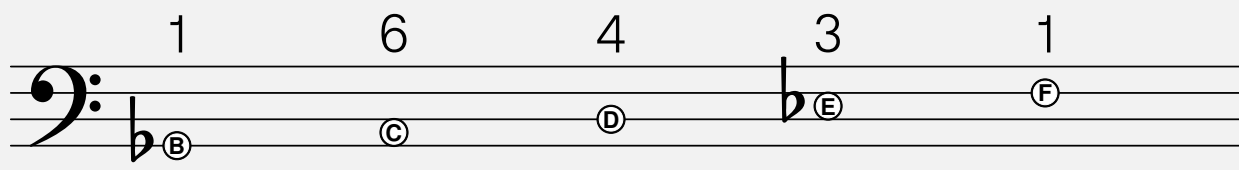

## Slide positions you need to know...

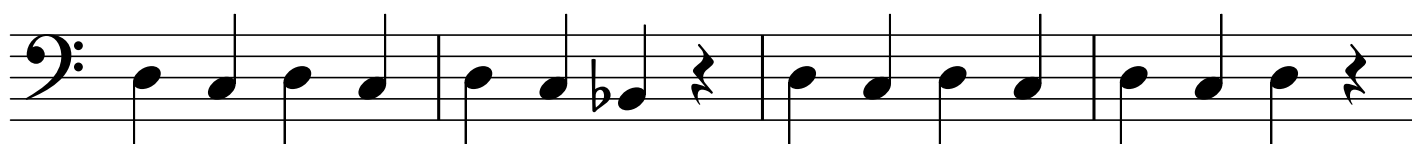

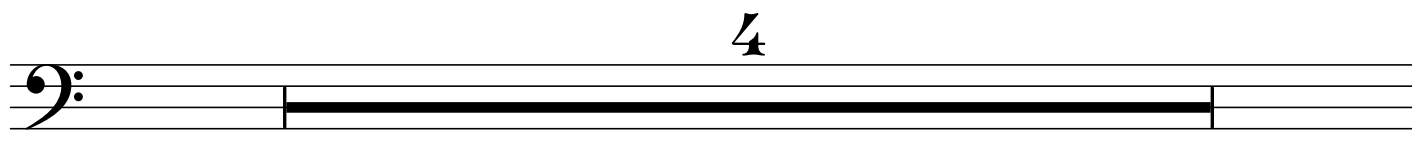

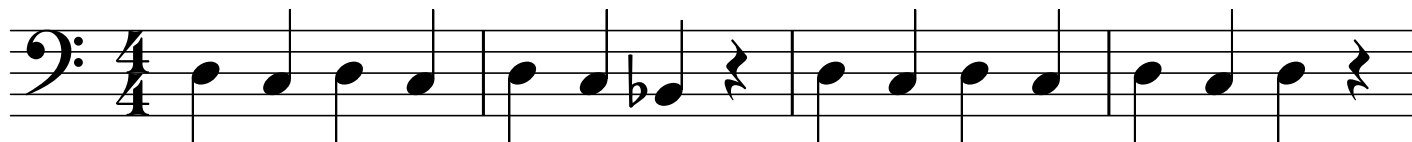

## 32. Big Bad Mo

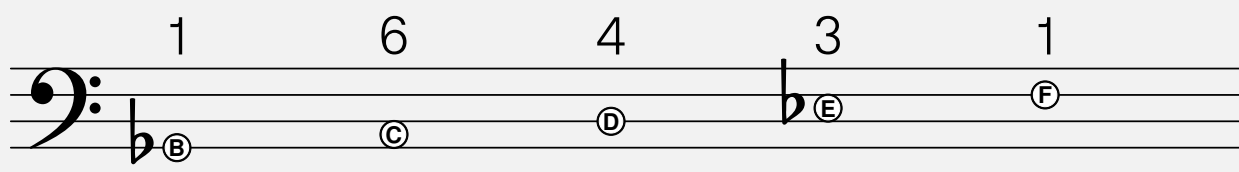

## Slide positions you need to know...

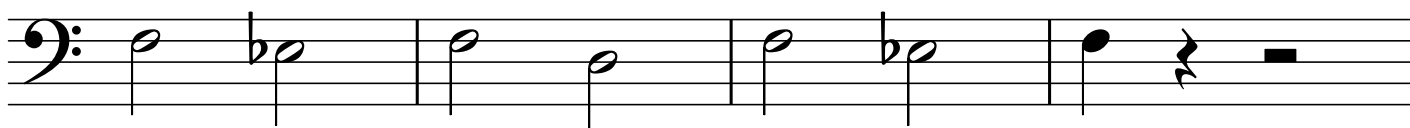

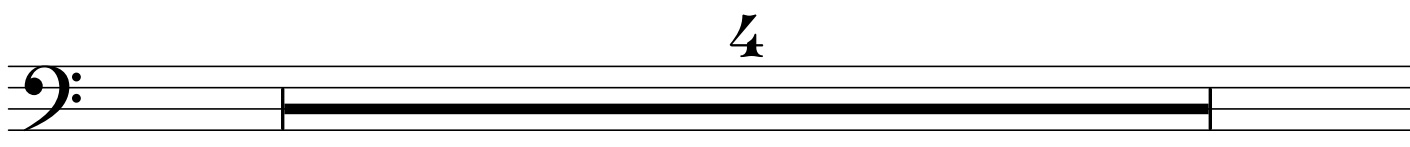

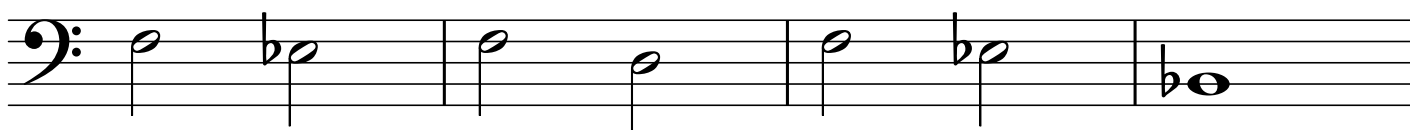

## 33. Extrapolation

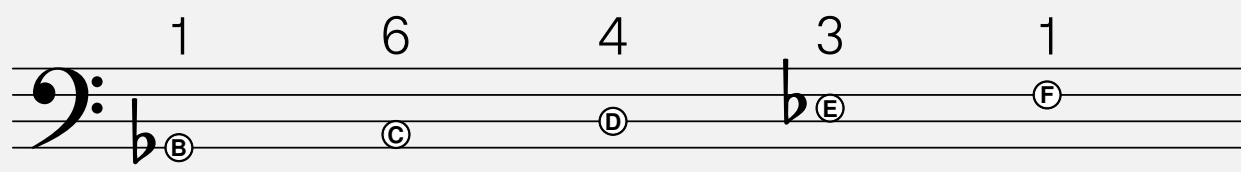

## Slide positions you need to know...

## 34. The Daily Grind

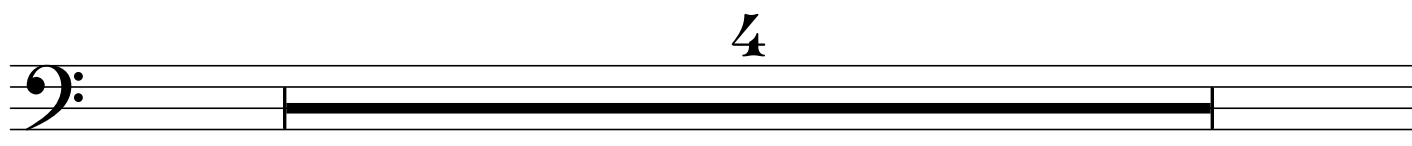

## Slide positions you need to know...

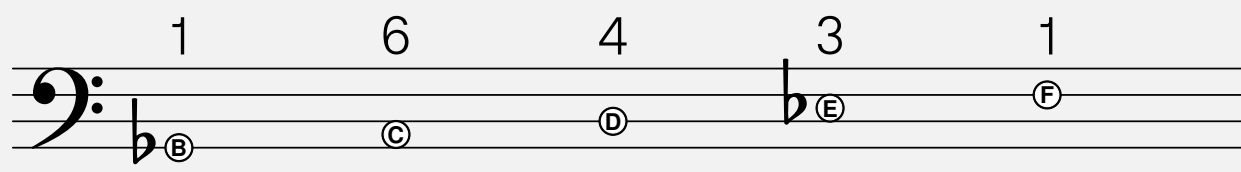

# 35. Mary Had a Little Lamb

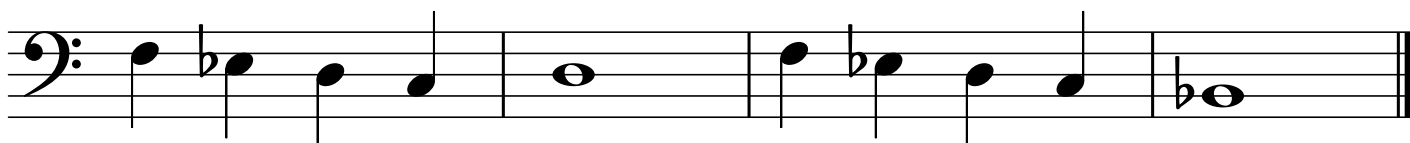

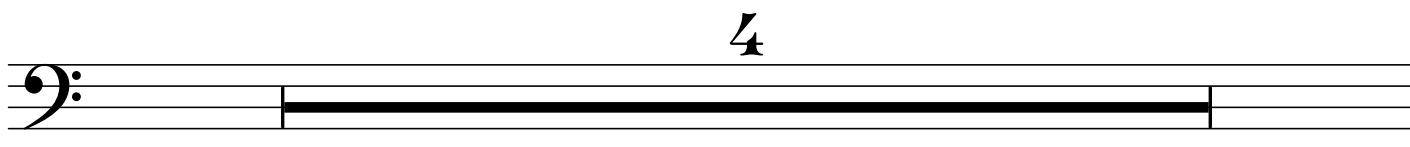

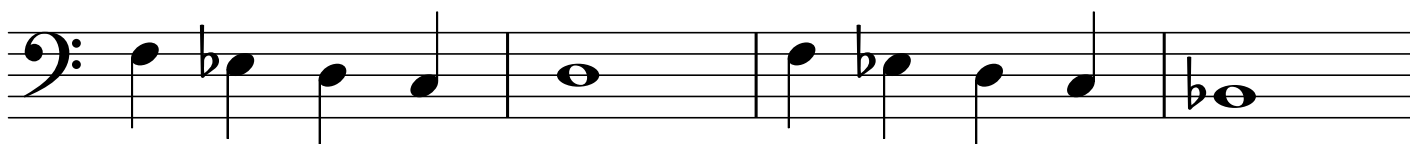

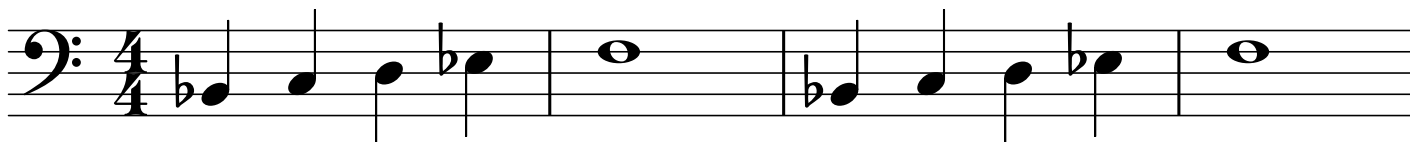

Traditional

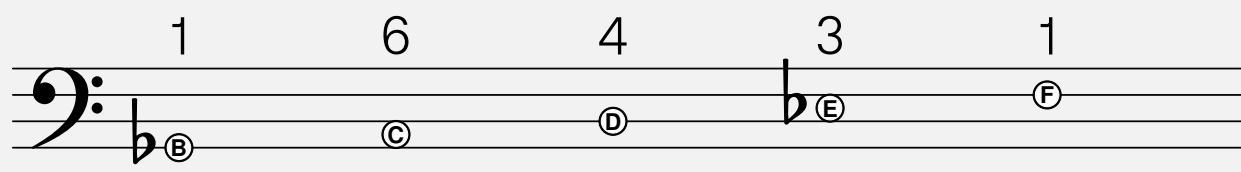

## Slide positions you need to know...

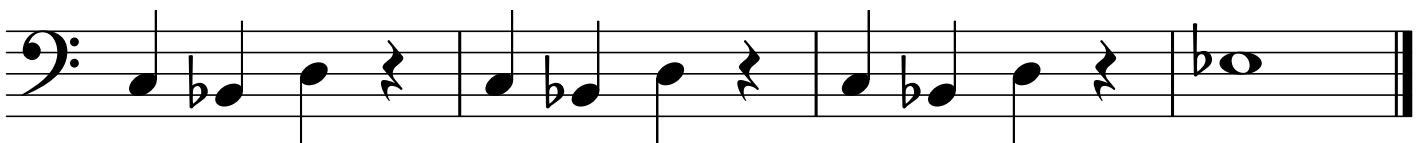

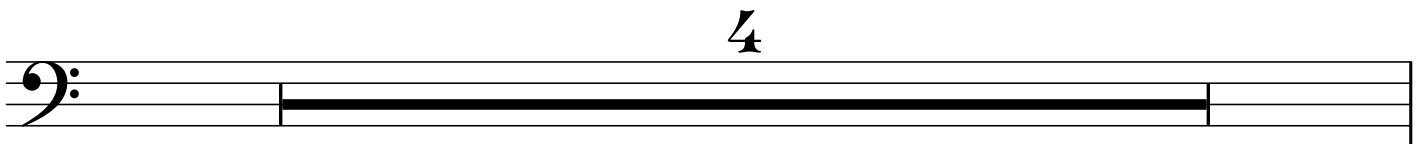

## 36. Avocado

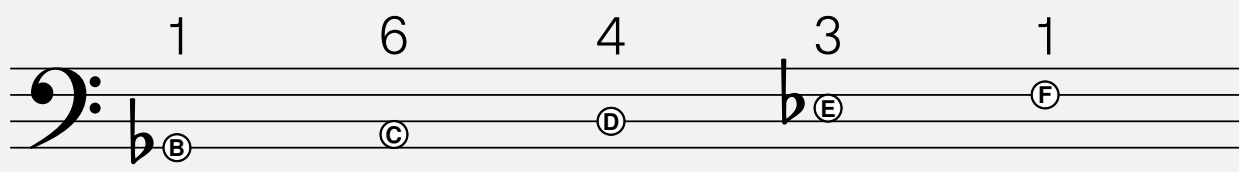

## Slide positions you need to know...

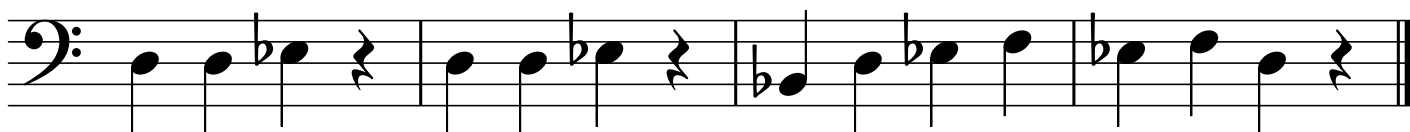

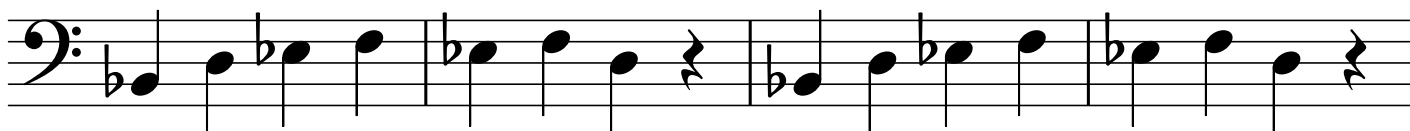

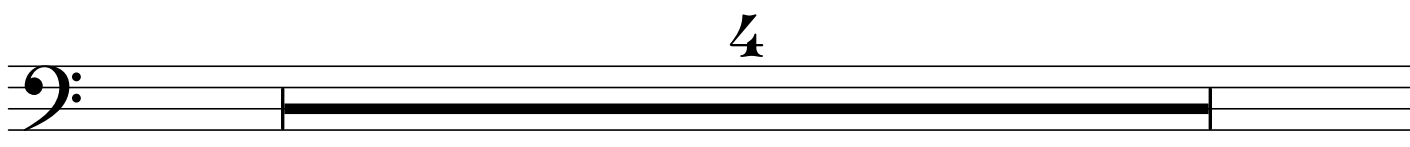

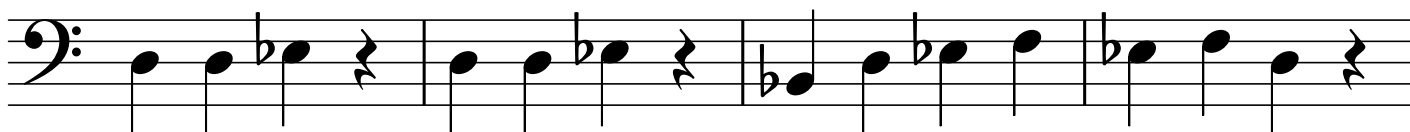

## 37. Ready Player One

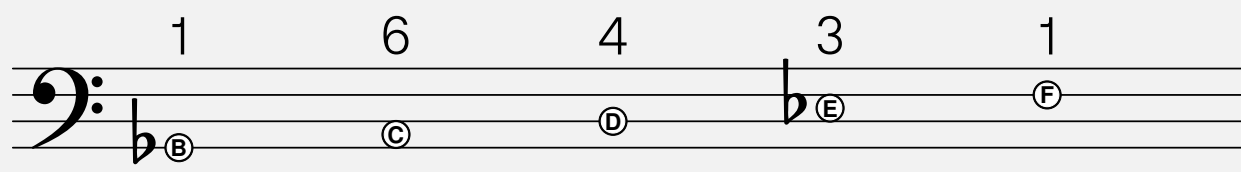

## Slide positions you need to know...

## 38. Cumulonimbus

## Slide positions you need to know...

## New rhythm symbol!

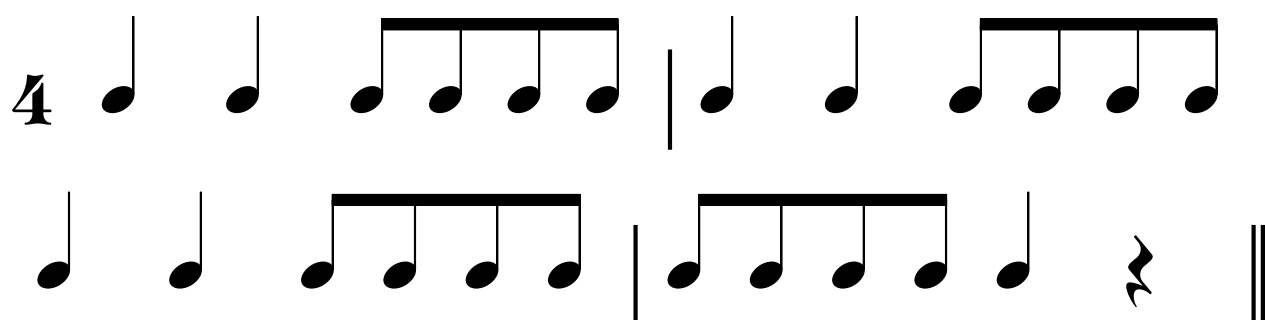

These are quavers, or eighth notes. These notes are a bit different to the other notes we've seen so far, because when we have groups of two or four of them we can join them together. Have look at these groups. They look different, but they're all played the same way!

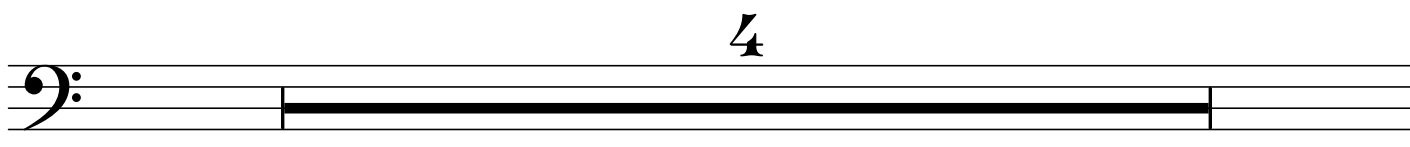

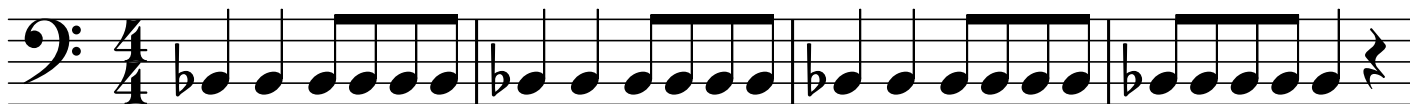

Why is there a 2 at the start of the rhythm and not a 4?

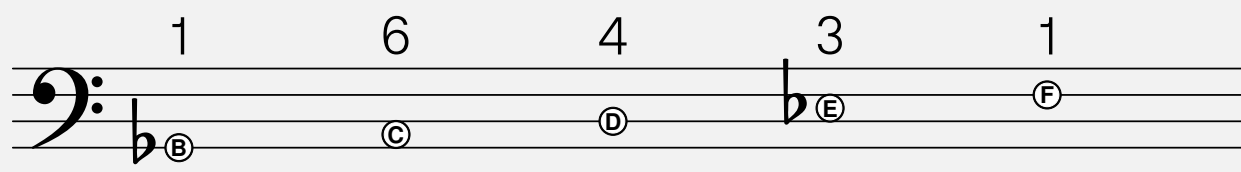

## Play this rhythm:

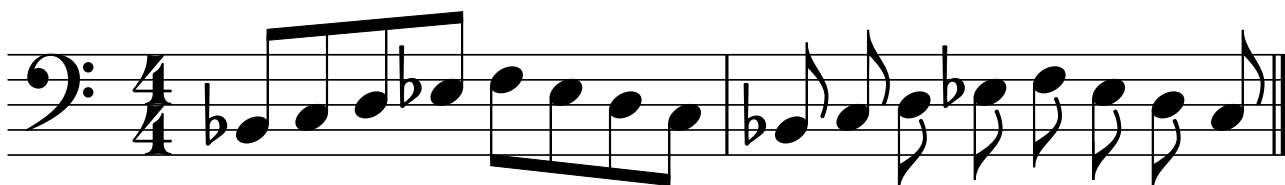

## 39. Thoughts Of Home

## Slide positions you need to know...

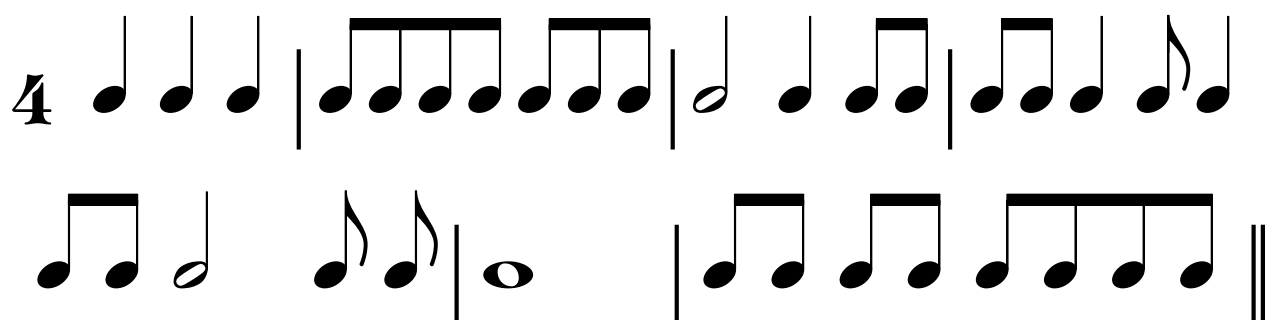

**Check out this rhythm:**

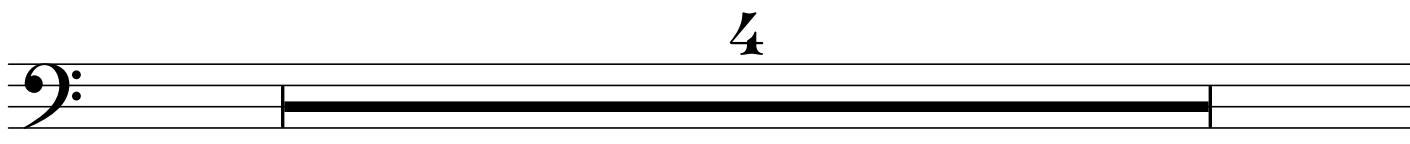

Is each bar the same? Which is easier to read?

**Check out this rhythm:**

Does each bar have the correct number of beats? Circle any that are **correct**.

## 40. Al Apocalypse

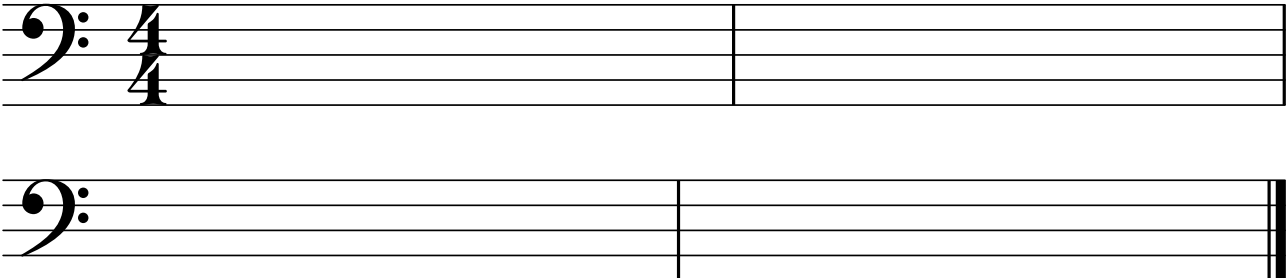

Slide positions you need to know...

1 6 4 3 1

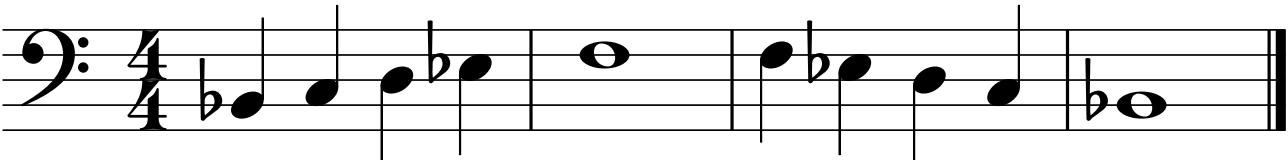

B $\flat$  C D E F

Write a tune using the notes you know.

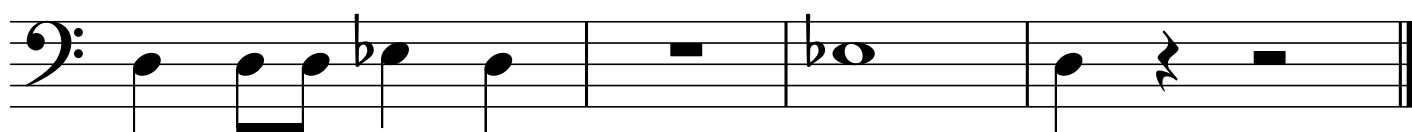

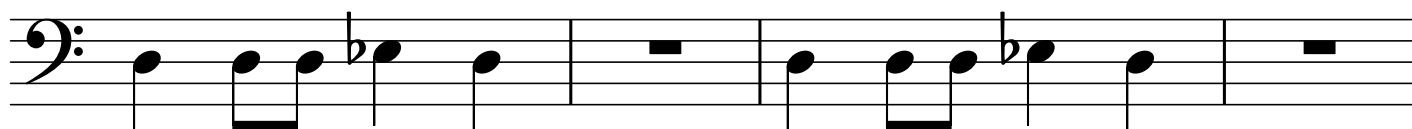

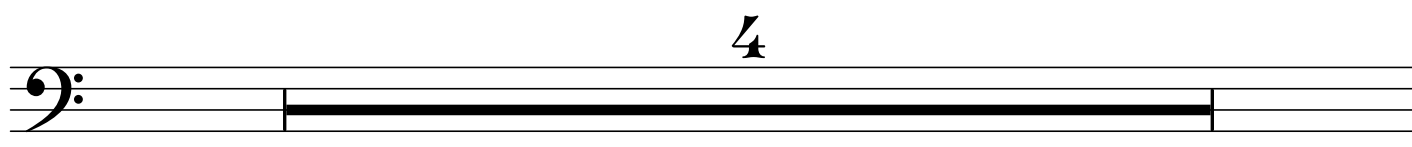

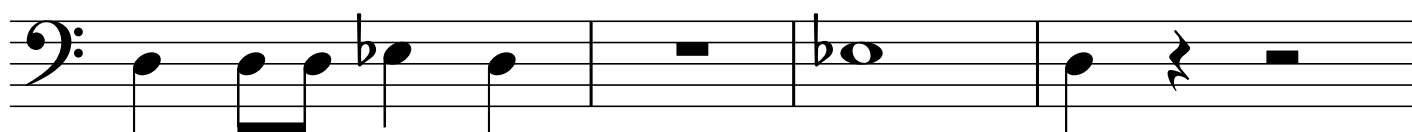

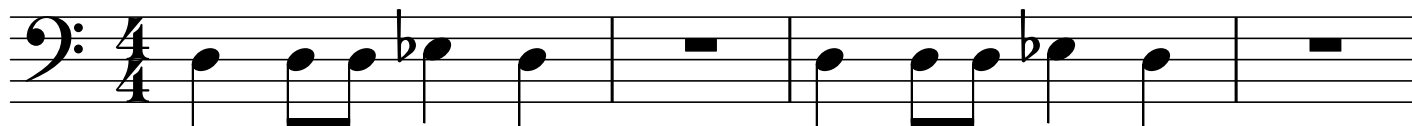

Don't forget to add flats (b) to your E-flats and B-flats!

## Five-up Five-down

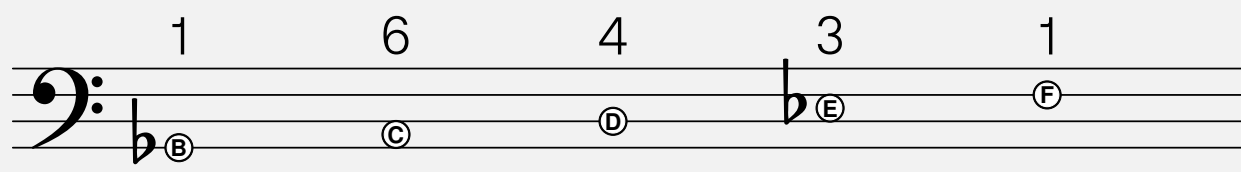

You will need to be able to play this from memory for your black belt, so get on it!

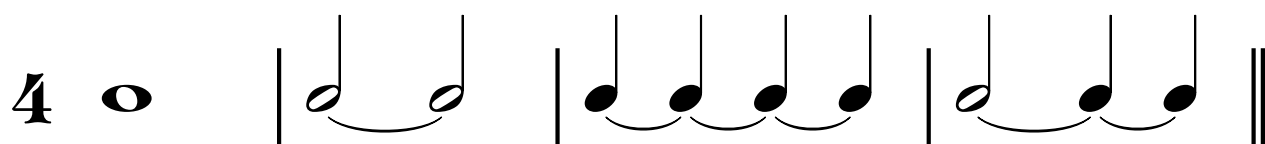

# 41. Brave New World

## Slide positions you need to know...

Sometimes we might need to connect notes together so they add their lengths together. To do this we use a symbol called a tie. It's a small curved line that shows the notes have been joined up. So, for example, all of these bars are played in exactly the same way:

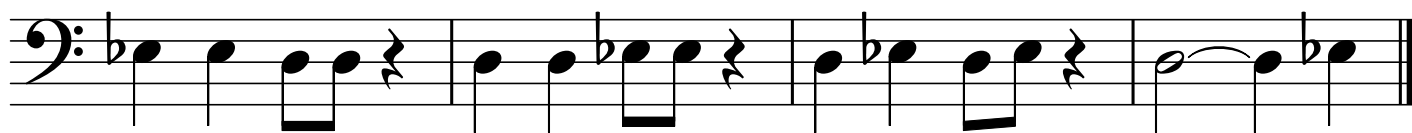

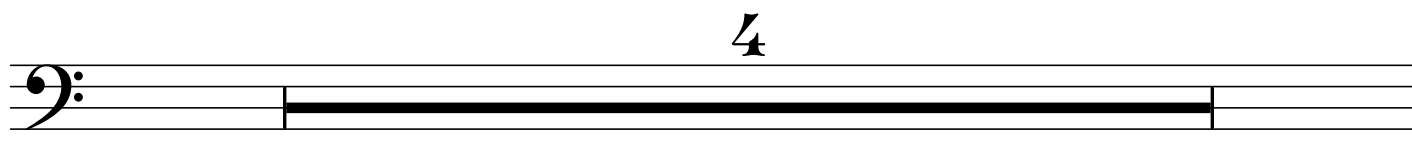

You might not think that that's not all that useful, because it's easy to make a four-beat note. However, we can make notes for lengths that we don't have symbols for. Think about how long each of these might be:

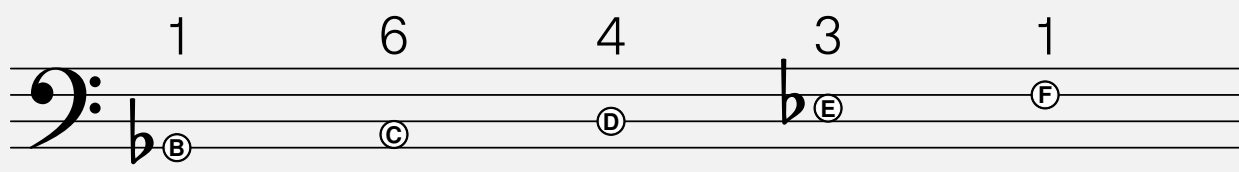

Note that the tie can go above or below the notes.

# 42. Phoenix

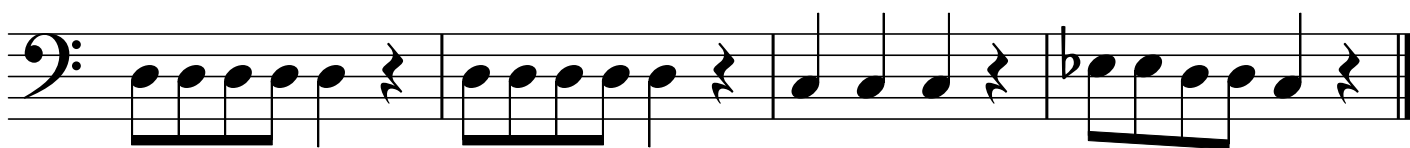

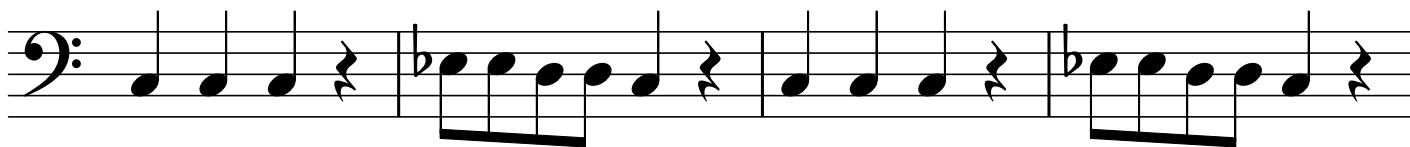

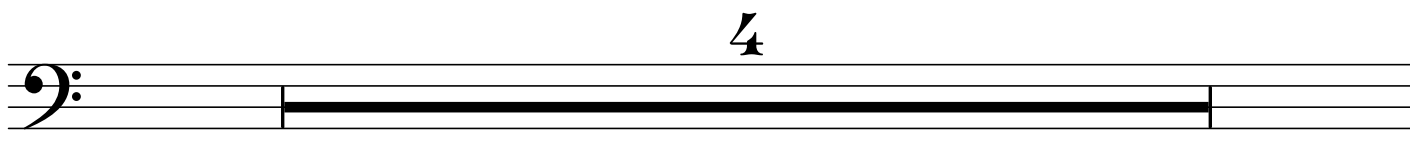

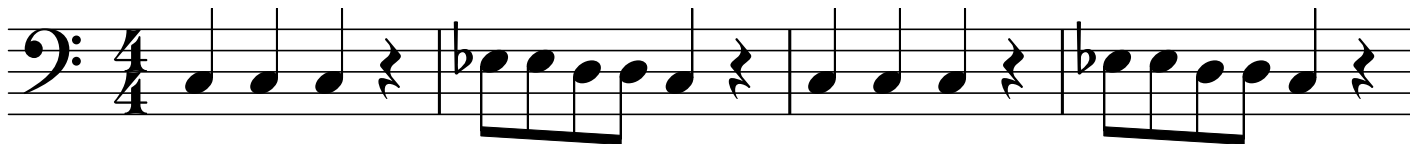

Melody by Phoenix Farmilo

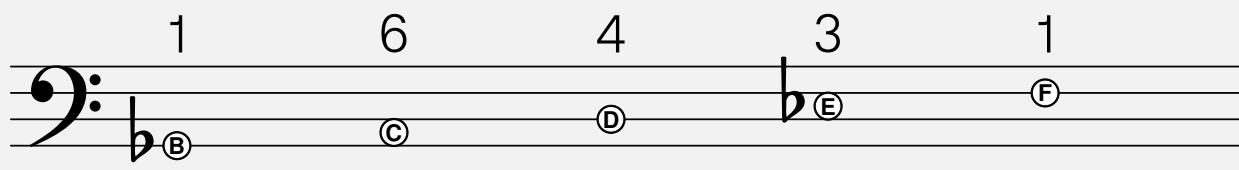

## Slide positions you need to know...

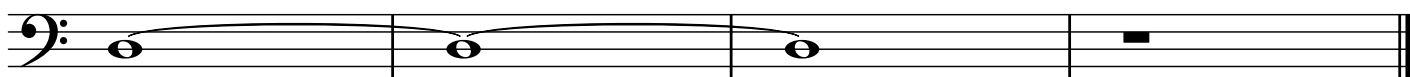

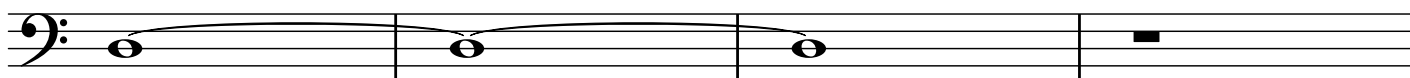

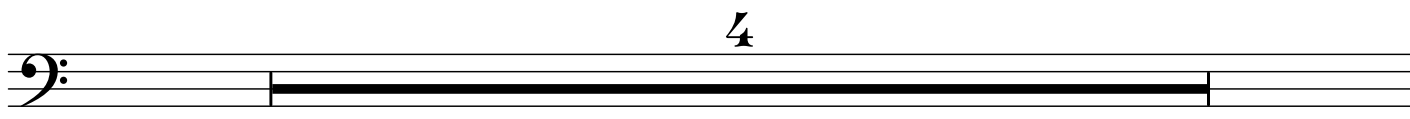

## 43. Pick Axe

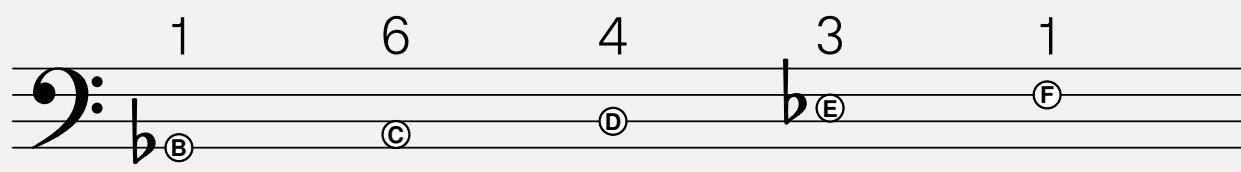

## Slide positions you need to know...

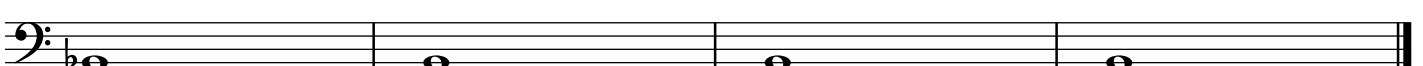

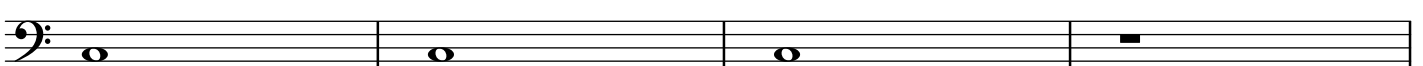

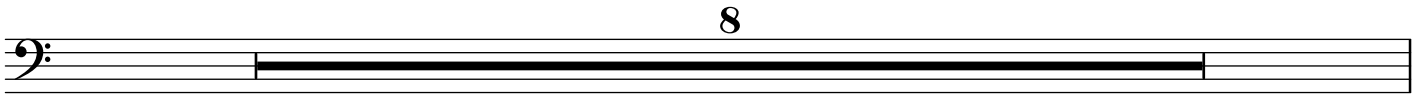

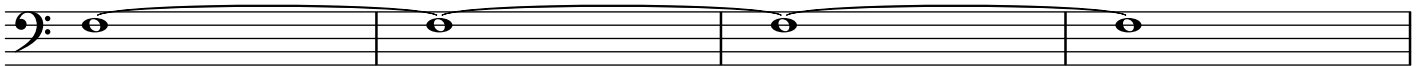

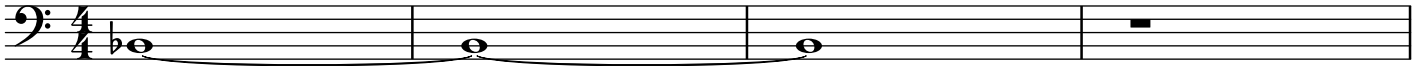

## 44. Above and Beyond

## Slide positions you need to know...

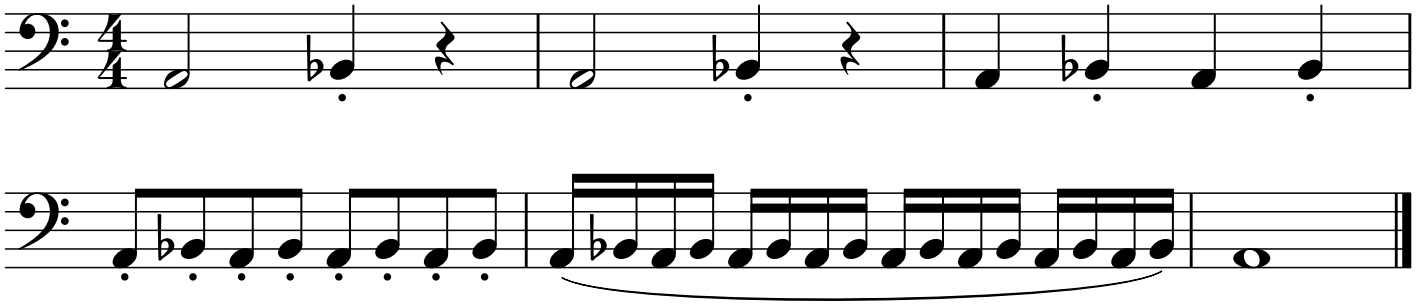

# 45. Rise and Shine

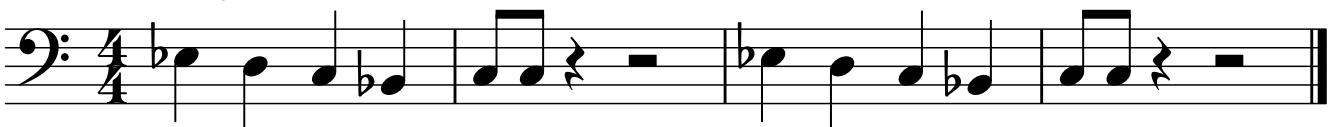

# Melodies

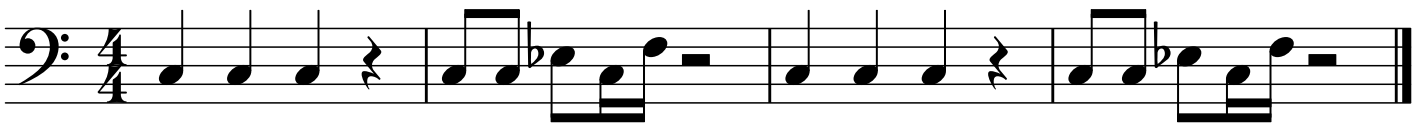

## Jaws

## We will rock you

## Another one bites the dust

## Seven Nation Army
